## Plan Abolition Of State Boards

**COMPLETE WORK ON  
SARCOPHAGUS FOR  
LATE U. S. LEADER**

Washington, D. C. — The work of setting in place the sarcophagus erected for Woodrow Wilson in the Bethlehem chapel of the Washington Cathedral was brought to completion Thursday.

Recessed in the south wall of the chapel in a space eight feet wide and eighteen feet high, the sarcophagus reposes under massive arches, with a leaded glass interior window forming the back ground. A grill, canopy and flags complete the arrangements.

The sarcophagus itself of a warm cream color limestone with almost a golden gleam, bears a single decoration—the crusader's cross. In front of the cross is inscribed "Woodrow Wilson" and the date of his birth and death—1856 and 1924.

**Teachers Examining and Soldiers Rehabilitation Boards Named**

**WOULD REDUCE EXPENSES**

**Proposed Highway Bill Due for Report Within Next Few Days**

Madison—Abolition of at least two state boards will be recommended to the 1925 legislature, according to word coming out of the joint legislative finance committee. One board is the state board of teachers examining, of which A. A. Upham of Whitefish is chairman with S. A. Leonard of Madison and F. O. Holt of Janesville, members. This was tentatively decided at a meeting of the committee Wednesday.

The decision is contingent upon a report by the state superintendent of public instruction as to whether his department will be able to take over the functions and duties of this board without additional appropriation from the state. If his report is favorable the committee will definitely recommend that the board be abolished and the work carried on in the future by the state department of public instruction.

Present appropriation of the board of teachers' examiners is \$1,000 a year. In addition the board is sustained by fees in connection with the holding of examinations and the issuing of state certificates to teachers.

Duties of the board now include the examination of teachers from out of the state and the admission of out of state colleges and normal schools who desire certificates.

**BOARD IS UNNECESSARY**

In making its tentative decision the joint finance committee declared itself convinced that the board was an unnecessary adjunct of state government and its functions could be carried on without undue inconvenience by the department of public instruction, thus reducing the appropriation \$1,000 a year and creating a revenue to the department in fees for examinations and certificates.

The other unit slated for discard is the soldiers' rehabilitation board carrying an appropriation of \$10,000. The proposed highway bill carrying a distribution program of approximately \$14,500,000 in state and federal aid in lieu of the present system of state, county and town contribution is due for report out of joint legislative highway committee within the next few days, according to the forecast.

The bill however has received many last minute changes. The most important of these is the ratio in which the huge net balance of the \$14,500,000 proposed fund will go back to the counties. After all of the regular program of road construction and maintenance has been taken care of for the year 1924-1925, there would be left for county distribution a net balance of about \$6,000,000.

The final draft of the bill disclosed that the ratio in which this balance is to go back to counties is 60 per cent road mileage and 40 per cent automobile registration. Instead of two thirds and one third, respectively, under the first draft of the program announced last week.

**PROVIDES THREE CLASSES**

Three classes of state roads are provided by the proposed bill, namely, primary, secondary and other roads. The allotment to the first class will be \$500 a mile, to the second class \$400 a mile, and to the third \$300 a mile. All cities will be benefited in amounts varying from \$50 to \$200 a mile on their streets, according to the class in which they belong.

Of the \$11,500,000 available in 1925-1926 from the automobile license tax, gasoline tax and federal aid, about \$8,500,000 will be needed for the general highway fund for immediate work and for the "free fund" to be expended by the highway commission on any roads of the state trunk system.

This would leave a balance of approximately \$3,000,000, of which \$2,000,000 will be used to maintain county trunks. The net balance of \$8,000,000 will be distributed to counties in the ratio named, according to the final draft of the bill.

The program will be financed from the following sources: auto license tax \$5,000,000; gas tax \$4,500,000; federal aid \$2,000,000; total \$14,500,000. The above amounts are approximate.

**LIGHTING GAS CLAIMS  
SIX IN SAME FAMILY**

Seranton, Pa.—Illuminating gas from a main thought to have been broken by a surface accident early Thursday morning took a toll of six lives, members of the family of Louis Desnoe, in West Seranton.

**Missing**  
Noted English Composer  
Disappears in New

Ethel Leginska, pianist, vanished somewhere between her home and Carnegie Hall, New York, where she was to play at a concert. Police are now seeking her.

## REVIVE PLAN TO ASSOCIATE WITH LEAGUE

**Opium Conference at Geneva Suggests U. S. Participation in Council**

**PROTOCOL MAY BE AMENDED**

**Proponents Hope Informal Participation May Lead to Final Entry**

By DAVID LAWRENCE  
Copyright 1925 by the Post Pub. Co.  
Washington, D. C.—The idea advanced recently by Colonel House that America become an associate member of the league of nations participating in its conferences but agreeing to its commitments only on considering the merits of each convention or treaty, has bobbed up anew with the plan approved by the American commissioners to the opium conference at Geneva.

Machinery had to be devised to secure the appointment of a body to supervise the control of narcotics and thus as the jurists who were forming the world court turned to the council of the league of nations, so the delegates to the opium conference have done likewise but with one significant change namely, that the appointing power be vested "in the United States and the council of the league." This is an improvement based on the experience with the world protocol and may be in the end a means of amending the protocol itself so as to insure American participation.

**U. S. IS SPECIAL CASE**

Far from being regarded as an evasion by the United States of its responsibilities, there is beginning to be a realization abroad that the system of government in Washington which requires ratification by two thirds of the senate of all international agreements of binding character makes it necessary to deal with the United States as a special case.

The willingness of the Geneva delegates to the opium conference to recognize this is a sequel to the controversy of the last six years over American membership in the league of nations. Mr. Coolidge has followed President Harding in stating emphatically that the United States will not accept their recent covenant of the league of nations and the league hasn't modified its covenant to meet the objections of the Republican party now in power. Indeed the chances are that amendment of the covenant in any particular is going to be a difficult process and that the same end may be achieved by having the United States as an informal associate of the league.

It is the influence of the United States in world councils rather than any specific treaty relationship which is mostly desired by the league though many Americans who favor the league hope informal participation ultimately will mean full fledged membership by the United States.

The practical question, however, is how to bring American influence to bear under the circumstances that exist today. The United States government has in recent months shown disposition to relate itself to league activities, sending commissioners and ministers to sit in conferences called by the league and already President Coolidge and Secretary Hughes have agreed to accept a league invitation to sit in a conference to consider reduction in armament.

All during the war the European powers consented to the use of the phrase "entente and associated powers" with the knowledge that the United States was an "associate." Something of the same sort has been devised by the opium conference to insure American cooperation.

Some of the Geneva dispatches would seem to indicate that to new plan might be to formula for all contacts between the league and the United States but opinion here in official quarters does not agree with such a view. Rather it is believed that each case will stand on its own bottom and that while the formula used with respect to the opium board may be applied in other international actions involving the United States, each convention will have to run the gauntlet of senatorial examination.

**Dry Director**  
Repudiated by Own State,  
Senator Gets U. S.  
Post

Because last November he staunchly supported President Coolidge in the South Dakota primaries, Senator Sterling was repudiated by his own state. Now he has been appointed to succeed Roy A. Haines as prohibition director. He has long been rated as an extreme "dry."

## YALE STUDENT SHOOTS WOMAN, ENDS OWN LIFE

**Refusal to Marry Youth Suspected as Reason for Double Tragedy**

Clarksburg, W. Va. — Neesen C. Woods, 23, a freshman in the law school of Yale university, shot and killed himself early Thursday after he had fired two shots into the body of Mrs. Georgia Warder, 23-year-old widow of Bridgeport, W. Va. The tragedy was believed to have been caused by Mrs. Warder's refusal to marry the young student.

A taxicab driver who had driven Woods and Mrs. Warder from Clarksburg to the home of Wade Sanbridge, her brother in Bridgeport, where she lived, heard Woods say as he stood upon the steps of the home "Well if you don't marry me nobody else can have you."

The couple went into the house and soon the driver heard the shots.

Neighbors rushed to the house and Mrs. Warder was taken to a hospital where it was said she probably would not live. One bullet entered her head and the other near her heart.

Woods and Mrs. Warder, accompanied by the student's mother, Mrs. J. H. Woods, had dined together in Clarksburg in the evening they had visited for a time at a hotel, where Woods and his mother were stopping, and the young couple left for Bridgeport in a taxicab.

Woods' father, J. Roy Woods, was a prominent attorney in West Virginia and died a few years ago. The student, who was graduated from West Virginia Wesleyan last June, entered Yale last fall and came to Clarksburg for a visit this week.

Mrs. Warder is a native of Bridgeport. Her former husband, Oran Warder, was killed accidentally a few years ago. She and Woods had been married some time but it was said her parents, Mr. and Mrs. W. H. Sanbridge, had opposed her marriage to the student.

## Follow Example Set By Senators

**SUN YAT SEN ON WAY TO RECOVERY AFTER RUMOR OF HIS DEATH**

Peking — Dr. Sun Yat Sen, leader of the government of southern China, who underwent an operation for cancer recently, spent a comfortable night and was not in pain Thursday morning.

His temperature was normal, his pulse registered 108 and physicians pronounced his condition satisfactory.

Dr. Sun Yat Sen was reported dead Tuesday in dispatches received at Tokio by a Japanese news agency. The foregoing dispatch from Peking tends to indicate that surgeons attending Dr. Sun are more hopeful about his condition. After Dr. Sun was operated upon it was expected his illness would prove fatal within ten days.

**Representative Wood Fails to Invite LaFollette Supporters**

**NELSON IS EXCLUDED**

**Meeting Will Mark Resumption of Practice Making Decision Binding**

By Associated Press  
Washington, D. C. — Republican house leaders moved Thursday to bar LaFollette insurgents from the party caucus, which will be held on Feb. 27 to select candidates for speaker and floor leaders.

Invitations to the conference were sent out Thursday by Representative Wood of Indiana, chairman of the Republican congressional campaign committee, who was authorized by the Republican committee on committees to invite all Republican members-elect of the house to participate.

No invitation was sent to Representative Nelson of Wisconsin, leader of the LaFollette insurgents, bloc manager of the LaFollette presidential campaign, or to any other of the nine Wisconsin representatives who, although reelected as Republicans, supported Senator LaFollette for re-election.

The call also excluded Representatives Keller of Minnesota, Sinclair of North Dakota and Laguardia of New York, all of whom have been active in the insurgent group.

**SEVERAL SLIP THROUGH**

Half a dozen or more representatives who have been allied at times with the LaFollette forces were invited to these caucus organization, leaders holding that during the recent campaign they did not show open hostility to the Republican national ticket.

The move Thursday is in line with action already broken by senate Republicans who have barred from party councils Senator LaFollette and other insurgents who supported him for the presidency.

Representative Wood designated the meeting as a "caucus," indicating that Republicans of the house will resume the practice of binding their membership to decisions reached at such conferences. For several years such meetings have been called "conferences" and decisions have not been binding.

Coincident with the issuance of the invitations, Representative Fear of Wisconsin, one of those not invited, defended his activity as a supporter of LaFollette in a speech in the house.

Mr. Fear declared that to his knowledge neither he nor any of his colleagues had urged the election to congress of any Democrats or Socialists.

**REPUDIATES LONGWORTH OF OHIO**

The Republican leader, then read an extract from a Providence, R. I., newspaper quoting Representative Brown of Wisconsin as having urged the election of the Democratic senatorial candidate and the Democratic congressional nominee in that district.

**CITES PRECEDENT**

Asked by Mr. Longworth whether he really believed he and his Wisconsin colleagues could legitimately be regarded as Republicans, Mr. Fear cited the refusal of Theodore Roosevelt in 1912 to support the Republican presidential candidate.

Representative Berger, Socialist, Wisconsin, asked Mr. Fear if it was not true that "our leader, Senator LaFollette, has repeatedly declared that both the Republican and Democratic parties were corrupt beyond redemption, and that he was seeking to promote a new movement in direct opposition to both."

"I don't know exactly what Senator LaFollette has said," Mr. Fear replied, "but I do know that you have expressed that view."

He added that the ten Wisconsin Republican representatives were elected by an average plurality of 33,000 while Mr. Berger retained his seat by about 1,000 votes.

Mr. Fear said that he had concluded from Mr. Longworth's expressed attitude that it is "proposed without a hearing to read out of the Republican party all duly elected Republican representatives of a great state."

"The right or power to punish by the majority party leaders or by a majority of party colleagues," he said, "is unprecedented in the house."

**DEER STARVE WHEN SNOW CUTS OFF WINTER FODDER**

Juneau, Alaska—Deer are starving to death in great numbers on Barrow off. Admiralty and other islands southwest of here on account of the heavy snowfall in many years according to official reports received from Sitka and other points Thursday.

A London despatch Wednesday night quoted the Westminster Gazette as saying it understood that the recall of Professor Smiddy probably was in consequence of the wealthy North Irish Free State minister plenipotentiary, from his post at Washington, it was stated in government circles here Thursday.

By Associated Press  
Dublin—There is no question of recalling Professor Smiddy as minister from the North Irish Free State.

In the event, it added, it was doubtful whether the Free State would appoint a successor, at least for the present.

## PASTOR PRAISES YOUNG'S ACTION IN BURIAL TALK

**Slain Dry Raider Is Credited With 100 Per Cent Improvement in City**

By Associated Press  
Herrin, Ill.—Eulogizing the work in Williamson-co of S. Glenn Young, the Rev. I. E. Lee, pastor of the First Baptist church here, Thursday declared that the slain liquor raider was "more responsible than other for cleaning out the dives and joints of this country and every foe that he had knew it well."

The pastor's remarks were delivered at the funeral services over the body of Young.

"Conditions in Williamson-co were almost beyond description two years ago," Dr. Lee said. "More than 30 public saloons were active on the main street of Herrin."

"This element joked at the law and is exceedingly angry because something has been done."

"Today the saloons are closed, as are the majority of dives and joints. We are 10 per cent better today in my opinion. Who would thought this reform?" S. Glenn Young—a man who did his work thoroughly and made the supreme sacrifice in doing it.

"We found S. Glenn Young, who was ever fearless and imbued with one idea—supremacy of the law. We are hoping and praying for peace—the peace founded upon law and justice to all. Perhaps the day of that peace is at hand—if not—may God speed the day."

## POUND ASKS FURTHER DELAY TO DECIDE ON WISCONSIN POSITION

By Associated Press  
Madison—Dr. Roscoe Pound, dean of the Harvard Law school, has asked for further delay in deciding whether he will accept the presidency of the University of Wisconsin. John Callahan, superintendent of public instruction, announced Thursday.

It probably will be several days before Dean Pound will be in a position to make a definite announcement, stated Mr. Callahan.

"Dean Pound has wired that a situation has arisen in the east which makes it impossible for him to make an official announcement at this time," Mr. Callahan said.

Pound declares in his statement that Wisconsin's offer is a most attractive one but that further time is desired by him before making an official announcement.

When the special committee of the regents composed of Theodore Kronshager, president of the board, and Mr. Callahan visited Dean Pound last week, the latter indicated to them that President Lowell was out of the city and he would have to await his return before making an official statement.

Mr. Callahan said that he did not expect to have more definite information from Dr. Pound for a few days.

## RESOURCES OF BADGER BANKS SHOW INCREASE

By Associated Press  
Madison — Resources of state and mutual savings banks and trust companies in Wisconsin showed a net increase of \$7,533,875.15 at the close of business Dec. 31, 1924, as compared with the report of Dec. 31, 1923.

Dwight T. Parker, commissioner of banking, announced Thursday. The resources reached the highest point in the banks' history, he said.

The report shows unmistakable evidence of the growth and soundness of the banks as a whole and reflects substantial improvement in the general agricultural, industrial and financial condition according to the commissioner. Deposits increased \$3,246,272.90; loans, discounts and United States securities decreased \$13,131,235.59 and bond holdings, stocks and other securities increased \$16,923,841. Total resources were reported as \$847,000,000.

## FRENCH CHAMBER BACKS HERRIOT

**Threat of Resignation by Premier Brings Vote of Confidence**

Paris—The chamber of deputies after a threat of revolt by the socialists and a counter threat by Premier Herriot that he would resign if the chamber failed to vote the printing and posting of his speech of Wednesday on security against Germany, Thursday afternoon passed the vote demanded, 541 against 32, implying confidence in the government's policy on all questions treated in the speech.

Premier Herriot's "security speech" calls for loud laudatory comment Thursday from practically all the newspapers.

The Conservative Figaro says the speech "constitutes a formidable reply to Stresemann's note," referring to Germany's answer to the allied communication regarding violations of the disarmament clauses of the Versailles treaty.

The equally Conservative Gaulois remarks: "We will see if M. Herriot will know how to maintain himself on the firm line upon which he set his foot yesterday. The chamber's almost unanimous applause will encourage him to do so."

Le Journal comments: "The premier uttered a speech impregnated with the purest patriotism." Former President Millerand's organ, L'Avenir, says:

"The Herriot we heard and applauded yesterday certainly is not the worst Herriot."

The same paper says in a headline, "Toucinet spoke by means of Herriot."

## DEMAND NEW VOTE ON PAY PUBLICITY

**Senator Merritt White Would Except Appleton Dam from Reversion**

By Associated Press  
Madison—Reconsideration of the vote by which the assembly approved the Titus resolution calling for publication of the names of the state officials and their salaries in the 1925 Blue Book was set for next Wednesday on request of Charles E. Tuffley, Roscoe, after Clinton G. Price, Muskegon, had moved reconsideration.

A movement immediately was started in the state senate to obtain a reconsideration there also although no formal motion to that end was made. Senator Titus, when he learned of what had taken place in the assembly, stated that if the reconsideration motion was made in the senate he would demand a roll call to place every senator on record.

Under the provisions of a bill introduced into the senate by Senator Merritt White, Wisconsin, it would exempt this dam from the provisions of the state law which provide that all new dams must revert to the state at the end of 30 years.

## WOMAN DIRT FARMER IS GAINER IN WHEAT RISE

Chicago—Strangely enough in one of the most hectic days in the wheat pit in 60 years, a woman, Mrs. Scott Durand who refers to herself as a dirt farmer, is reported to have made a fortune running close into six figures when old general public got into the market Wednesday.

The excitement apparently knew no bounds as shorts were rushing to cover and amateur buyers were urging their brokers to buy, forcing the price to \$2.05 1/2, the high spot Wednesday for May delivery.

Mrs. Durand would only smile and admit that she had "dabbled in wheat" but refused to confirm or deny the story of her winnings. She and her husband own the model "cabbage dairy" farm at Lake Bluff and are among the wealthy North Shore social circles. She thinks the price of wheat will go even higher.

## BRILLION MAN KILLED WHEN TRAIN HITS CAR

By Associated Press  
Madison—Joseph Schmelter of Brillion was killed in crossing accident on the Calumet road here Wednesday night. Alfred Nelson, of Green Bay, driver of the automobile in which Schmelter was passenger, escaped without a scratch. The car had a right front wheel smashed, the right front door torn off and the fender and running board damaged. Nelson said the gates dropped ahead of him and that he swung north with the direction of the train. He does not know whether Schmelter made an attempt to jump or whether the door flew open and he was thrown out. Injuries to the head caused the death.

# TRADES COUNCIL. PUTS ITS O. K. ON CHILD LABOR LAW

## Schneider Urged to Support Steel Express Coach Bill in Congress

Indorsement of the amendment to the federal constitution authorizing congress to legislate on child labor was given at the meeting of the Appleton Trades and Labor Council Wednesday evening. The meeting was presided over by William Eggert, vice president, in the absence of President Bachman who was detained by other business.

Michael J. Blick was elected a delegate to the legislative conference called by the state federation of labor for Feb. 1 at Madison. Pending labor legislation in the two houses of legislature will be discussed at this conference.

The council also went on record as favoring the bill now before the lower house in congress that would compel all railroads to use steel coaches for express and mail transportation. The bill has already passed the senate. A communication was ordered sent to Congressman George J. Schneider urging his support of the measure.

A communication was received from the executive committee of the state police chiefs association in which appreciation was expressed for the council's endorsement of the proposed law making police pension funds in cities of fourth class obligatory.

## PLAN PARIS TO NEW YORK FLIGHT IN THIRTY HOURS

Paris—The under secretary of state for aeronautics is credited by newspapers with organizing a non-stop airplane flight from Paris to New York.

It is said that the trip will be made in a 500 horsepower single motor monoplane and that it is expected the voyage will require 30 hours.

## CARABINEERS TRAP YOUNG REPUBLICANS

By Associated Press  
Rome—A group of young Republicans were arrested Wednesday while arranging for the purchase of 800 pistols from the barracks of the Carabinieri. The Republicans are said to have approached the Carabinieri with their proposal and to have given them 1,000 lire as a guarantee of good faith for the payment of an additional 3,000 lire for the pistols.

The Carabinieri trapped the youths when the time came for the supposed transfer.

One of the youths was identified as Silvio Bentivoglio, secretary of the Federation of Young Republicans. A notebook found in his pocket was said to contain a list of the alleged conspirators.

When the Republicans first approached the Carabinieri they are said to have asserted:

"There are most important personalities involved in this, including various deputies."

# Carl Hoffman New President Of Young People

Reorganization of the young people's organization of St. Matthew Lutheran church took place at a meeting at the church Tuesday evening and Carl Hoffman was elected president. The new name will be the Young People of St. Matthew Lutheran church. Other officers elected are: Vice president, Orville Hertzfeldt; secretary, Miss Marie Glinnow; treasurer, Miss Joyce Muritz.

Meetings are to be held each alternate Tuesday, with Bible study, business and a social program.

## LAWRENCE DEBATORS START WINTER PROGRAM

After a practice debate Wednesday night in which the opposing teams argued to no appreciable advantage, the Lawrence affirmative team left Thursday for Lomira to meet Ripon, and the negative team went to Watertown to debate the Beloit affirmative speakers. Prof. Orr accompanied the negative speakers and Prof. Franke the affirmative.

The debates at Lomira and Watertown will be non-decision, open forum discussions. After the formal debate, the audience will question statements and enter into an open discussion of the merits of either side. This system is an innovation in Wisconsin debating.

# U. S. NAVY NEEDS 8 MILLIONS TO MODERNIZE RADIO

Most of Big Sum Is Required to  
Replace Radio on Ships  
Now in Use

Washington, D. C.—More than \$8,500,000 would be required to put our navy on a modern peace basis, so far as radio alone is concerned.

If war were declared today, this sum would have to be raised to about \$15,700,000 for radio equipment alone.

Admiral John K. Robison, chief of the navy's bureau of engineering, gives these estimates in his request to Congress for funds to improve radio installations in the navy.

Most of the \$8,500,000 needed says Robison, would have to go for radio apparatus for ships in commission. It would be used to replace spark sets still in use, obsolete receiving apparatus and receivers designed for the wavelengths that are no longer available to the navy.

"DUPLEX" NEEDS  
It would also provide for accurate measuring equipment to keep the operators on their assigned wavelengths and would also enable ships to operate "in duplex." That is, receiving and sending at the same time, an essential especially during warfare.

Of this amount, however, Admiral Robison has asked Congress for \$560,000 for vessels to be in commission in 1926 and about \$900,000 for land station improvement and maintenance.

HIGHER COST  
In his report, Robison points out that naval radio apparatus is more expensive than other commercial equipment because of special requirements and because they are not bought in great quantities.

Wave meters suitable for navy use, he explains, cost about \$550 each. When only about 50 or so are ordered quantity production methods cannot be considered as helping to reduce this price.

Robison estimates the value of all naval radio apparatus in use today at about \$7,500,000, although he adds this amount could never be raised at a forced sale.

To replace this with modern equipment, he figures, it would cost Uncle Sam more than twice this much—about \$15,700,000.

# SCHINDLER BEGINS WORK AS SURVEYOR

L. M. Schindler has assumed his active duties as county surveyor, following the filing of his bond with the finance committee of the county board. His application for the bond was made too late for the regular meeting of the committee earlier in January and he therefore could not qualify for the office until the special meeting of the county board Tuesday.

Mr. Schindler was elected in November to succeed F. M. Charlesworth of Kaukauna.

One of Mr. Schindler's first tasks will be to assist in a hearing at Waupaca early in February on a drainage project that includes acreage in Outagamie and Waupaca counties.

# COLLEGE FRENCH CLASS TO GIVE ANOTHER MOVIE

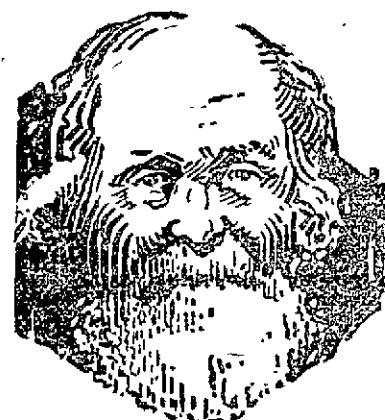

If present plans are completed, another motion picture will be presented by the French department students at Lawrence college, according to Dr. Louis C. Baker, head of the department. Last year the students presented "Les Misérables," adapted from Victor Hugo's masterpiece, and its success has made it practically certain that it will present another similar picture this year.

Dr. Baker has been looking over the market of available films during the past days, and reports that it is very difficult to secure a film of this class. Dr. Baker believes that these films are helpful in that a wide range of French literature can be covered in a few years in this manner. If it is possible, a film will be presented every year.

# The Best Cough Syrup is Home-made.

Here's an easy way to save \$2. and yet have the best cough remedy you ever tried.

You've probably heard of this well-known plan of making cough syrup at home. But have you ever made it? Thousands of families, the world over, feel that they could hardly keep house without it. It's simple and cheap, but the way it takes hold of a cough will soon earn it a permanent place in your home.

Into a pint bottle, pour 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to fill up the pint. Or, if desired, use clarified molasses, honey or corn syrup instead of sugar syrup. Either way, it tastes good, never spoils, and gives you a full pint of better cough remedy than you could buy ready-made for three times its cost.

It is really wonderful how quickly this home-made remedy conquers a cough—usually in 24 hours or less. It seems to penetrate through every air passage, loosens a dry, hoarse or tight cough, lifts the phlegm, heals the membranes, and gives almost immediate relief. Splendid for throat tickle, hoarseness, croup, bronchitis and bronchial asthma.

Pinex is a highly concentrated compound of genuine Norway pine extract, and has been used for generations for throat and chest ailments. To avoid disappointment ask your druggist for "2 1/2 ounces of Pinex" with directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money refunded. The Pinex Co., Ft. Wayne, Ind.

**DROPS IN THE BUCKET**  
The United States immigration bureau is engaged in pinpricking again. It has dug up, by profound and energetic research, the names of some 1,960 aliens who were good enough Americans to want to become citizens, but couldn't present evidence of inspection at the border. And it is proposing to deport 1,735 of them.  
It will seem to many that this is getting at the least important end of the immigration problem. Immigrants annually are admitted to this country by illicit smuggling operations to the number of many thousands. If some method of registering and following all legally admitted immigrants could be established, it might be possible to hold annual roundups of aliens who slipped over the line. Many such incomers, entering the country by stealth, are the poorest type of residents—the scum of their races. But the pursuing of a little group of less than 1,800 immigrants who have established themselves as reasonably law-abiding members of the community and had enough sense of responsibility to apply for citizenship would simply be combing off the cream and sending it back.  
Much of the work of the immigration bureau is of so negligible a character that it creates an impression at once of bull-headedness and futility. Instances of foolishly rigid application of the law in some particular case are constantly turning up. The latest is the case of the child of a Battle Creek resident alien. This little girl suffered defective hearing and sight from scarlet fever, visited a relative in Toronto and was not permitted to return.  
What the bureau needs most, it would seem, is the utilization of a few sensible loopholes in the name of common sense and decency. Arresting children on visits and hanging around court blotters to catch aliens trying to become citizens is not a man's job—nor a nation's.

**THE DIRE EXAM**  
Nine to twelve and two to five, day after day, students in colleges and universities throughout America, not to mention high schools, are or soon will be going through the semi-annual misery of the semester final exams. News comes from Ann Arbor that the usual debate upon the usefulness of these "relies of barbarism" is at its height.  
Yet the notion that the modern college examination is a holdover from the dim past and should be regarded as outworn has very little of history to recommend it. The dim past had no such thing as periodical tests, mid-semester and "finals." The examination was given in the old European universities only for the degree. You could sit around and sop up knowledge from lectures for six, eight or ten years without ever taking a test, and then, having got out of this process as much information and thinking capacity as your intellect could absorb, you could present yourself for the doctorate and a license to teach, which you received if you satisfied a board of doctors appointed by the college, delivered a good speech and defended a "thesis" properly against students set to badger you.  
The fact is that no such system is feasible under modern educational conditions in America. If it were established, campuses would be flooded and university towns loaded down with idlers spending parents' money—and the state's—under the easy pretext of taking on polish. Education is a grim business today, not confined to the training of wranglers able to defend themselves in debate against pupils or lawyers as was the case in the middle ages. The attempt to train an engineer, for instance, with never a test of his trigonometry, never a paper or "bluebook" to bring him up to the mark, would be ludicrous.  
State governments and endowers of universities want to know periodically, twice a year at least that students are not abusing the privileges given them at great expense. So long as that is the case the modern institution known as the exam will stay. It's sad, but it is true.

**ECLIPSES AS SHOWS**  
The United States has had the pleasure of attending two home eclipses of the sun in a little more than two years. The first one "drew" as audience, on September 10, 1924, most of the motoring Pacific coast, who rushed down the shoreline on concrete roads to San Diego and Tia Juana. The second picked a poorer season but an even better theater for its debut.  
Over much of its path poor visibility, due to winter's overcast sky, interfered with a perfect and sometimes with all view of the phenomenon. But the shadows passed over the most densely populated section of America. Ten millions applauded in the orchestra of totality alone, and no one has guessed how many more in the balcony of partial shadow.  
An eclipse is at once a vast spectacle of the heavens and a monster vaudeville act. It is a vaudeville act because that prince of prestidigitators and magicians, the spectacled astronomer, achieves in it his coup de grace, the mightiest popular triumph of his profession.  
"Nothing up my sleeve," he says, "nothing between my fingers except this pencil." And proceeds to sit down with a few tables and sheets of paper, after which he announces: "On such and such a day, at such and such an hour, the conjunction of a satellite moving around the earth and the body around which the solar system revolves will be such that the sun will disappear."  
Last Saturday was the astronomer's day of glory, the climax and justification of his act. With a nation for his audience and half its width for a stage he proceeded to demonstrate. Is there anything like an eclipse for its pure show value? An entire world gasps and says: "I don't see how he does it!" And that is the accolade of the perfect showman.

**WHAT A RUNNER DID**  
Charles E. Mitchell, president of the National City Bank of New York, and Leonard Astrom, minister of the Republic of Finland which has been floating loans through that bank, say that Paavo Nurmi, the great Finnish runner who has been breaking world records in the United States, has been worth not less than \$10,000,000 to his country in improving its standing in the financial markets.  
The Finnish declaration of independence, they explain, was scarcely noticed; but Nurmi is a daily marvel, and people note: "The nation which can produce such runners as this man and his comrades, Stenroos and Ritola, must be inhabited by a people of great stamina!" The endurance of Nurmi has disposed of more bonds than an army of salesmen. It has put Finland on the map.  
Which is another way of saying two things: That the character of a people is worth more than all the intricate compacts ever drawn; and that advertising pays.

**TODAY'S POEM**  
By HAL COCHRAN  
HIDDEN SWEETS.  
Tucked deep away, in a blanket that's snug,  
is a tiny thing, taking a nap. Just like the popular "bug in a rug," is this creature folk hold on their lap.  
It's bed is a carriage that's parked for a spell right close to the grocery man's door. How plain is the story such carriages tell! Mom's shopping inside of the store.  
The passerby stops and they just take a peep. It's just like all people to do. They "O-o-o" and they "A-h-h-h" over the fat that's asleep and the little one slumbers right through it.  
How pretty the trimmings, with blanket tucked tight and ribbons of silk, expanding wide. How sweet is arranged and how sweet is the sight, with the sweetest of all things inside.  
Soft wafts of fresh air gently wend their way by, and often the sunshine is stopping, to just get its fill of a treat to the eye that sleeps while its mother is shopping.  
(Copyright, 1925, NPA Service, Inc.)  
Some people marvel at the way birds go south for the winter. Since they have nothing else to do they would be foolish not to.  
"Nothing makes the modern girl blush," says a woman writer, but now and then a girl does.  
Just as a suggestion it happens on railroad crossings, we could have undertakers for flagmen.  
Those who have done great things had only one life in which to do them, which is the same amount of time you have.

**ROUGH STUFF FOR GOOD TEETH.**  
Writing in the South African Medical Record, Cape Town, Dr. H. M. Brown gives some conclusions which he has arrived at from a survey of the condition of children's teeth in that part of the world and studies of the factors concerned in the development and conservation of the teeth. Among the conclusions he draws from his survey of the question are these:  
The survey confirms the theory that a coarser diet is associated with good teeth, and a softer diet with bad teeth. It confirms the idea that soft water is prejudicial and hard water beneficial for the development of sound teeth. It suggests that plenty of sunshine, that is, exposure of the skin to the sunlight, is an important factor in favoring the building of strong sound teeth. "The life of brushing the teeth is of secondary importance in the prevention of decay of the teeth although Dr. Brown thinks it should still be carried on.  
I might raise an impertinent question here, namely, why carry on a rite if there is no definite indication that it contributes anything to the preservation of the teeth? But I fully comprehend that such a question is impertinent, just as is another one I am often tempted to ask, namely, why urge people to get plenty of fresh air if you suspect that exposure is dangerous? But even if I might ask such questions, understand, please, I am not going to ask them, because every time I do I cut down my audience—every time there are some who get up and walk out on me. And that defeats my purpose, which is to teach as many people as possible that not all the things they know about health or hygiene are so.

It is the diet, then, that is of prime importance, according to Dr. Brown, and he particularizes to some extent. He says the diet from early infancy should be of rougher, coarser character than we ordinarily think is suitable for infants. And he recommends coarser meal for bread, zwieback, raw fruit, raw vegetables, especially vegetables of the fibrous class, because these are all effective cleaning agents for the teeth. Incidentally, these fruits and vegetables contain the unidentified substance known as a vitamin, which is indispensable for the normal development of the teeth, gums and jaws.  
In regions where the water is quite soft it is advisable, in Dr. Brown's opinion, that children and adults consume a relatively greater proportion of calcium containing foods, and he enumerates as the best foods of this kind, that is, the foods richest in lime (calcium) salts, milk and cabbage. Raw cabbage, as I have ventured to say here, is a health food par excellence. Just how early in life a child may begin to eat raw cabbage is a question which I shall not try to answer dogmatically, but I think it is ordinarily not necessary to send for a doctor if a 2 year old child has teeth on a wee bit of raw cabbage, unless some irresponsible person has put vinegar or some other condiment on the cabbage.  
Dr. Brown mentions certain facts which have been pretty well established by nutrition students and practicing physicians in this country, namely, that the use of small doses of plain cod liver oil (say five to ten drops twice a day) and the exposure of the mouth of the child to the sun, for a reasonable time daily enables not only the teeth, but all the body tissues to make full use of the lime (calcium) in the food.

**LOOKING BACKWARD**  
TWENTY-FIVE YEARS AGO.  
Thursday, Feb. 1, 1900.  
William Goebel was sworn in as governor of Kentucky Wednesday night, following a long dispute between Goebel and Gov. Taylor over the right to that office. Goebel was shot and wounded Tuesday by a farmer. His condition was regarded as serious, and Kentucky was on the verge of a civil war.  
British casualties since the beginning of the Boer war now numbered 8,658 men, according to a report from London.  
A. L. Smith announced that he would enlarge the store occupied by Matt Schmidt.  
City officials expected to be in their new quarters in the city hall and library building by Feb. 1.  
Sub zero weather prevailed in Appleton, and weather forecasts predicted no relief within the next few days.  
A public meeting for the inspection of plans and specifications for St. Elizabeth hospital was announced for next Wednesday evening.  
The marriage of a Little Chute man and a Menasha girl was delayed when the couple failed in obtaining a marriage license. They were not aware of the fact that there is a law setting a minimum age for marriage license applicants. The couple lost no time in obtaining the written consent of their parents.  
A horse belonging to Dr. Rush Winslow nearly smothered to death in a fire which burned in his barn the evening previous.  
Freshmen and sophomores of the Third ward high school were to meet each other in the first of a series of annual debates Friday night. The subject of the first debate was, "Resolved, that congress should at its present session pass a bill authorizing the United States to construct, own and operate the Nicaragua canal."  
A dispatch from Whitehall stated that the Trempealeau insane asylum built by the Hackworth Construction company of Appleton had been accepted.

**TEN YEARS AGO.**  
Thursday, Jan. 28, 1915.  
Fierce fighting between the advance guards of the Turkish army menacing the Suez canal and the British outposts was taking place.  
President Wilson vetoed the immigration bill. Closure of the "Open door" and use of the literary test were given as the causes therefor.  
The United States treasury reported a deficit of \$70,000,000 as compared with \$19,000,000 a year ago.  
The chances of the Appleton high school basketball team to beat the Fond du Lac squad was greatly reduced by the injury suffered by Rex Wunderlich. While skating he had fallen and cut his foot.  
Passengers of interurban cars were delayed about an hour 10 o'clock last evening when a trolley wire came down at Waverly beach.  
James Wood returned last night from Chicago where he attended the annual auto show.  
The charge for telephone communication on the single line extended from New York to San Francisco was \$20.70 for the first three minutes and \$2.25 for each additional minute.  
The annual meeting of the Appleton Athletic association was to be held this evening. It was to be decided whether Appleton was to remain on the baseball map.  
The government thermometer at the Thiele store this morning registered 22 below zero.  
Students of Appleton high school this morning received the "School Spirit" number of the Clarion. It was dedicated to Miss Constance Johnson, instructor in English.  
Mr. and Mrs. August Brandt returned yesterday from a ten days wedding trip, most of which was spent in Chicago, Milwaukee, Manitowoc and Sheboygan.

**No Riches For Those Who Serve**  
BY FREDERIC J. HASKIN  
Washington, D. C.—A new conception of public officials is being built up in the minds of American citizens as the result of the services performed in recent years by men appointed to high places.  
An outstanding example is found in the secretary of the treasury, Andrew W. Mellon. Another in the secretary of Commerce, Herbert Hoover. Others might be mentioned by the score.  
Perhaps the greatest opportunity for personal profit ever opened to an individual was presented to Byron R. Newton Mr. Newton was assistant secretary of the treasury during the war. He had special charge of an enormous number of contracts for government construction. It was a period when the public was accustomed to great expenditures and when little attention was paid to the circumstances of awarding contracts. For several years—in fact all through the war period—Mr. Newton held this position. He worked early and late, signing contracts for millions upon millions of dollars worth of buildings. Finally he quit the job—flat broke. He had to get something else to do because the meager salary he received was insufficient to support his family.  
OLD BUT ACTIVE  
The case of Mr. Mellon is perhaps a sharp contrast but no less interesting from the standpoint of public service. As Mr. Newton was a poor man, so Mr. Mellon is admittedly a very rich man. He has reached the traditional life span of three score years and ten. He has had a busy life in which he has mingled private business with public affairs. He established the Mellon institute, a scientific organization which makes investigations invaluable to industry.  
In his later years he was called into the cabinet by President Harding. The summons, it is said, was a distinct surprise to him. He had done his work in a quiet and unassuming manner. He had not sought publicity of any sort. It was upon recommendation of the late Senator Keno, of Pennsylvania, that Mr. Harding invited Mr. Mellon to take up the tasks of secretary of the treasury.  
The first public reaction to the appointment was that "one of those Pittsburgh millionaires" had been named, but it was not long before there was a change in sentiment. It was discovered that this "Pittsburgh millionaire" was not of the type which periodically goes to Broadway strutting dollars right and left. Washington and the rest of the country found that the treasury was headed by a quiet, rather diffident, elderly man who was extremely unassuming in social and official life, but who, when it came to making a deal for the government, proved to be a financial genius of the first rank.  
HAD HUGE JOB  
Everyone who knew anything about the state of the nation was aware that the job of handling the postwar finances was a more difficult one than the raising of money during the hostilities. When the war enthusiasm was rife, when speeches were being made, when a highly organized publicity bureau was functioning, it was not so difficult to borrow money with which to pay for the war. But after it was over, there was a different story. It was the morning after the war enthusiasm was past. The public was sick of the war, sick of taxes, sick of liberty bonds. Yet the nation had to be financed.  
This was the task undertaken by the diffident man from Pittsburgh. So, having reached an age at which most men retire, being in possession of wealth which would enable him to command any indulgence he might desire, having an unassailable social

Q. When Peary was at the North Pole what way did his compass point? M. H. B.  
A. In the Northern Hemisphere the compass needle points in the direction of the north magnetic pole. As the north geographic pole which is the pole described by Peary, is not in the same location as the north magnetic pole, the compass still pointed in the position, Mr. Mellon came to Washington, at a salary no more than what hundreds of thousands of business men receive for services which are never heard of outside their own circles, and went to work.  
Mr. Hoover belongs in the same general category. When he was called into the cabinet, it was known that he was a man of great wealth. As a matter of fact his wealth had been diminished by his previous public service. During the war he was food administrator. When President Wilson appointed him, he took up the work at once. Congress had appropriated no funds for the food administration, so Mr. Hoover, instead of waiting for slow congressional action, opened his Washington at once. Out of his private funds he rented a large building in Washington and from his own pocket he paid hundreds of clerks. This went on for some months. In the end congress appropriated the money to reimburse him for what he had spent, but, of course, did not indemnify him for the amount he had lost by withdrawing his money from his private business.

**Great Hymn Was Inspired By Fog**  
(From The Mentor.)  
In 1833 a young Englishman, ill and weary for home, took passage on a crane boat from Sicily to France. In the bay of Bonifacio the wind died, and for a full week there was unending fog, the danger of an unfelt tide and current, the mystery of a leaden sea.  
From the haze, where all things seemed at a halt, came the inspiration of the hymn, Lead, Kindly Light, leading passenger. It was out of loneliness and homesickness that the lines of the immortal hymn took form. The young Englishman was John Henry Newman, then a university man, 32. Later he became a cardinal.  
Them usic for Newman's words came years later. In 1865 Dr. John B. Dykes, an am of note as an organist, and composer, was walking one day in the Strand, the busiest of London thoroughfares. And there amid the hubbub of the city, the melody grew in his mind so that when he returned to his study he set down the notes of Lead, Kindly Light.

**ROUGH STUFF FOR GOOD TEETH.**  
Writing in the South African Medical Record, Cape Town, Dr. H. M. Brown gives some conclusions which he has arrived at from a survey of the condition of children's teeth in that part of the world and studies of the factors concerned in the development and conservation of the teeth. Among the conclusions he draws from his survey of the question are these:  
The survey confirms the theory that a coarser diet is associated with good teeth, and a softer diet with bad teeth. It confirms the idea that soft water is prejudicial and hard water beneficial for the development of sound teeth. It suggests that plenty of sunshine, that is, exposure of the skin to the sunlight, is an important factor in favoring the building of strong sound teeth. "The life of brushing the teeth is of secondary importance in the prevention of decay of the teeth although Dr. Brown thinks it should still be carried on.  
I might raise an impertinent question here, namely, why carry on a rite if there is no definite indication that it contributes anything to the preservation of the teeth? But I fully comprehend that such a question is impertinent, just as is another one I am often tempted to ask, namely, why urge people to get plenty of fresh air if you suspect that exposure is dangerous? But even if I might ask such questions, understand, please, I am not going to ask them, because every time I do I cut down my audience—every time there are some who get up and walk out on me. And that defeats my purpose, which is to teach as many people as possible that not all the things they know about health or hygiene are so.

**LOOKING BACKWARD**  
TWENTY-FIVE YEARS AGO.  
Thursday, Feb. 1, 1900.  
William Goebel was sworn in as governor of Kentucky Wednesday night, following a long dispute between Goebel and Gov. Taylor over the right to that office. Goebel was shot and wounded Tuesday by a farmer. His condition was regarded as serious, and Kentucky was on the verge of a civil war.  
British casualties since the beginning of the Boer war now numbered 8,658 men, according to a report from London.  
A. L. Smith announced that he would enlarge the store occupied by Matt Schmidt.  
City officials expected to be in their new quarters in the city hall and library building by Feb. 1.  
Sub zero weather prevailed in Appleton, and weather forecasts predicted no relief within the next few days.  
A public meeting for the inspection of plans and specifications for St. Elizabeth hospital was announced for next Wednesday evening.  
The marriage of a Little Chute man and a Menasha girl was delayed when the couple failed in obtaining a marriage license. They were not aware of the fact that there is a law setting a minimum age for marriage license applicants. The couple lost no time in obtaining the written consent of their parents.  
A horse belonging to Dr. Rush Winslow nearly smothered to death in a fire which burned in his barn the evening previous.  
Freshmen and sophomores of the Third ward high school were to meet each other in the first of a series of annual debates Friday night. The subject of the first debate was, "Resolved, that congress should at its present session pass a bill authorizing the United States to construct, own and operate the Nicaragua canal."  
A dispatch from Whitehall stated that the Trempealeau insane asylum built by the Hackworth Construction company of Appleton had been accepted.

**TEN YEARS AGO.**  
Thursday, Jan. 28, 1915.  
Fierce fighting between the advance guards of the Turkish army menacing the Suez canal and the British outposts was taking place.  
President Wilson vetoed the immigration bill. Closure of the "Open door" and use of the literary test were given as the causes therefor.  
The United States treasury reported a deficit of \$70,000,000 as compared with \$19,000,000 a year ago.  
The chances of the Appleton high school basketball team to beat the Fond du Lac squad was greatly reduced by the injury suffered by Rex Wunderlich. While skating he had fallen and cut his foot.  
Passengers of interurban cars were delayed about an hour 10 o'clock last evening when a trolley wire came down at Waverly beach.  
James Wood returned last night from Chicago where he attended the annual auto show.  
The charge for telephone communication on the single line extended from New York to San Francisco was \$20.70 for the first three minutes and \$2.25 for each additional minute.  
The annual meeting of the Appleton Athletic association was to be held this evening. It was to be decided whether Appleton was to remain on the baseball map.  
The government thermometer at the Thiele store this morning registered 22 below zero.  
Students of Appleton high school this morning received the "School Spirit" number of the Clarion. It was dedicated to Miss Constance Johnson, instructor in English.  
Mr. and Mrs. August Brandt returned yesterday from a ten days wedding trip, most of which was spent in Chicago, Milwaukee, Manitowoc and Sheboygan.

HIDDEN SWEETS.  
Tucked deep away, in a blanket that's snug,  
is a tiny thing, taking a nap. Just like the popular "bug in a rug," is this creature folk hold on their lap.  
It's bed is a carriage that's parked for a spell right close to the grocery man's door. How plain is the story such carriages tell! Mom's shopping inside of the store.  
The passerby stops and they just take a peep. It's just like all people to do. They "O-o-o" and they "A-h-h-h" over the fat that's asleep and the little one slumbers right through it.  
How pretty the trimmings, with blanket tucked tight and ribbons of silk, expanding wide. How sweet is arranged and how sweet is the sight, with the sweetest of all things inside.  
Soft wafts of fresh air gently wend their way by, and often the sunshine is stopping, to just get its fill of a treat to the eye that sleeps while its mother is shopping.  
(Copyright, 1925, NPA Service, Inc.)  
Some people marvel at the way birds go south for the winter. Since they have nothing else to do they would be foolish not to.  
"Nothing makes the modern girl blush," says a woman writer, but now and then a girl does.  
Just as a suggestion it happens on railroad crossings, we could have undertakers for flagmen.  
Those who have done great things had only one life in which to do them, which is the same amount of time you have.

# 500 Moose At Lodge Mask Party

About 500 persons attended the mask ball and costume party given by the Appleton Women's club, to be given at 1 o'clock Saturday noon in the clubhouse. No more than 60 reservations will be received. The chairman for the luncheon are Mrs. S. C. Rosebush and Mrs. H. J. Ingold.

It has been announced that women who care to play cards after the luncheon may do so, provided they take their own decks of cards.

# Expect Sixty Women Will Be At Luncheon

Over 40 reservations have been received thus far for the monthly luncheon of Appleton Women's club, to be given at 1 o'clock Saturday noon in the clubhouse. No more than 60 reservations will be received. The chairman for the luncheon are Mrs. S. C. Rosebush and Mrs. H. J. Ingold.

It has been announced that women who care to play cards after the luncheon may do so, provided they take their own decks of cards.

# Penny Social Of Y.P.S. Draws Crowd Of 200

About 200 persons attended the penny social given by the Young Peoples society of St. Paul Lutheran church Wednesday evening. Candy, foodstuffs, and other articles were donated by the members and these were sold. Booths for sightseers also were provided and considerable mirth was provoked by the things inside which were revealed to curiosity seekers. Total receipts from the social were about \$50. Arrangements were in charge of Miss Erna Gehm.

The society is planning a skating party for Wednesday of next week. There will be a business meeting at the school hall at 8 o'clock after which members will go to the first ward rink.

# CARD PARTIES

Twenty seven tables were in play at the open card party given by Women's Catholic Order of Foresters Wednesday in Catholic home. Bridge, schafkopf and dice were played. Prizes at schafkopf were won by Mrs. Ferdinand Haberman. Mrs. A. Robedeau, Henry Guckenberger and William Stoffel; at bridge by Mrs. S. Leuchars and Mrs. Wickert; at dice by Adeline Kitzinger and Mildred Schneider. A short business meeting preceded the party.

Cash prizes will be given at the open card party by Franklin Mothers club at 8 o'clock Friday evening in Franklin school hall. Bridge, schafkopf and dice will be played.

Mrs. Lydia Schreiter and Mrs. Arthur Zschnecher won prizes at bridge at the meeting of the Elk ladies Wednesday afternoon in Elk hall. Eight tables were in play. The hostesses were Mrs. E. W. Douglas and Mrs. I. J. Cameron.

you left hurriedly, and of course I do not know how many private papers you have left in that desk. But when I tried to remonstrate—and I did rather heatedly—Miss Bradford interposed by saying:

"I'm sure, Nurse" (she always calls me "Nurse" when she wants to be particularly disagreeable), "that Mrs. Prescott Junior will be as glad to have the secret drawer in her desk found, as she will be to have her rooms put in complete order without any worry to herself. I'm certain that it has not had a thorough cleaning and careful going over since she moved in the apartment."

"When I saw the condition of her closet, which was a cleaning today and which has presumably been used daily and therefore more apt to be in order than other rooms less used, I know that if I were Mrs. Prescott and through my devotion to society and my friends had left my place in such a way, I would be very glad and thank my husband's mother very much for putting the entire place to rights."

This bit of righteous pretention on her part led to a discussion, in which I was completely ignored, of the dresses and wraps and other things which were found in your closet and bedroom bureau. The probable cost of all this paraphernalia seemed to worry them very much. Miss Bradford made your mother-in-law think you were culpably extravagant.

Perhaps, my dear Mrs. Prescott, I should not tell you all this, but I know how infuriated I would be to have a perfect stranger go through my small possessions when I was not by, so I determined to write you, that you might better understand why I am leaving Mrs. Prescott Senior in two weeks, even if you do not return.

Unless you are willing that meddling old maid should go through your entire house in the hopes of making you out an unprofitable wife, you would do well to wire me, or better still, wire your friend Mrs. Burke to look up the whole place and forbid their admittance.

I want you to understand, my dear

Mrs. Prescott, that before Miss Bradford came I was delighted with the place. I enjoyed your husband and yourself and little son immensely, and although your mother-in-law was at times exigent, she seemed to be growing more tolerant of new ideas. However, now it is perfectly impossible to make her understand anything is of any use except what Miss Bradford tells her.

Sincerely yours,

ANNETTE ANDERSON.

### RAUGHT WITHHOLDS PAGEANT REPORT

Small Attendance at Meeting of Kaukauna Advancement Association

Kaukauna—Eight or nine members of the hundred or more belonging to Kaukauna Advancement association attended the regular meeting Wednesday evening in the council chambers. No business was transacted but plans were made to meet again next Wednesday. The usual supper will be served as it is apparent that is one sure way of securing a quorum.

Mayor C. E. Raught was prepared to make a detailed report regarding the pageant of 1924 and will probably do so at the next meeting. Until the Advancement association has acted upon the report he will not make it public.

A committee was appointed to prepare another fish supper to be served at 6 o'clock. Cards will be sent out next week.

### M'COY'S SON ELECTED MANAGER OF "TIMES"

Kaukauna—The regular annual meeting of the Kaukauna Times Printing Co. was called for Wednesday evening but no session was held because of the absence of a majority of the stockholders. No one had been authorized to represent the controlling interest of the late John McCoy, editor and manager of the paper. Minutes of the last meeting were read and the report of the board of auditors was received. Later the directors elected Robert McCoy, son of the late editor, as manager with complete authority until some disposition is made of the stock.

### MR. FEEHAN WOULD BE GLAD IF RUMORS WERE TRUE

Kaukauna—A persistent rumor that L. C. Feehan was a six cylinder Packard at the Milwaukee auto show last week has been broadcast throughout the city during the last few days and has caused no little amount of amusement. Mr. Feehan has been kept busy answering telephone calls from his friends who had heard the story and wished to verify the report. People stopped him on the street and stopped in his place of business to congratulate him until Mr. Feehan is beginning to believe the story. To date he has received no official notice of his apparent "good fortune" but has declared he is ready to call for the prize at a moment's notice.

### COLLECT 21 BAGS OF CLOTHING FOR NEAR EAST

Kaukauna—Twenty-one bags of clothing were given by Kaukauna children to Near East relief last week. The task of collecting the clothes and packing and mailing them was done by a committee from Kaukauna Women's club. Mrs. Roy Nelson, chairman, has received a letter from R. C. Hufstader of Milwaukee, state director extending a vote of thanks to those who offered their help.

The committee which assisted Mrs. Nelson was Mrs. J. J. Haase, Mrs. Edward Haas and Mrs. Frank Kern.

### REFORMATORY HEAD TALKS TO ROTARIANS

Kaukauna—H. C. Bolund, superintendent of the boys' reformatory at Green Bay, was the speaker at the Rotary meeting Wednesday noon. Mr. Bolund gave a talk on the work of the institution. A visitor from Madison invited the local club to attend the state Rotary convention to be held in Madison in April.

### LYCEUM COURSE PROGRAM STARTS AT 8:20 TONIGHT

Kaukauna—The Lyceum course program in the high school auditorium Thursday evening will begin at 8:20. The time of starting has been set back as an accommodation to those who wish to attend the Parent-Teachers association health meeting at the Bijou theatre. A musical program will be offered by the Royal Troubadours.

### LAMBIE FUNERAL

Kaukauna—Funeral services of Andrew Lambie who died at 11 o'clock Tuesday morning at his home, 811 Lawrence, will be held at 2 o'clock Friday afternoon from the home and at 2:30 at Brookwood Methodist church with the Rev. W. P. Hulen in charge. Burial will be in Keelo cemetery.

### WANTED CORRESPONDENT AT FREMONT

Person who is in contact with local affairs and can write well, desired as news reporter. Only small amount of spare time required.

Address applications to  
State Editor,  
Appleton Post-Crescent  
Appleton, Wis.

### Social Items

Kaukauna—Mrs. George Dogot entertained the Five Hundred club Tuesday evening at her home, 214 Main-ave. Prizes at five hundred were won by Miss Viola Wolf and Miss Adah Thelen. The next meeting will be at the home of Miss Laura Steeger.

Members of the Good Time club surprised Mrs. Bell Zwirk Tuesday evening at her home 140 E. Fifth-st. Prizes at scholastic were won by Mrs. Peter Brill, Miss Elsie Van Denzen, Mrs. William Schmitt and Mrs. Henry Amora.

The Young Peoples' society of Trinity Lutheran church held its regular meeting Wednesday evening in Trinity school. Routine business was disposed of.

Mrs. Fred Mayer entertained the Wednesday afternoon Scholastic club at her home on Second-st. Wednesday. Prizes at cards were won by Mrs. Joseph Thelen, Mrs. August Heinz and Mrs. John Gerend. The next meeting will be in two weeks at the home of Mrs. Anna Nagan.

Club No. 11 of St. Mary church will give a card party next Tuesday evening in the church basement. Prizes will be awarded.

Kaukauna—A surprise party was held Tuesday evening at the home of Dr. and Mrs. E. A. Mayer, East Second-st. The party was to celebrate the birthday anniversaries of Mr. Mayer, A. P. Anderson and Fred Merbach. Cards were played and prizes were awarded to Mrs. William Nyles, Mrs. Fred Merbach, A. P. Anderson and George Buerth.

Mrs. Charles Peterman entertained six couples at cards Wednesday evening at her home, 128 Sarah-st. Prizes were awarded to Mr. and Mrs. L. E. Vandenberg, Mr. Ebbert and Miss Mayne Guilfoyle. Miss Guilfoyle is from Milwaukee and is a guest at the home of Mrs. John Heollian.

The regular meeting of the fourth degree Knights of Columbus will be held Thursday evening in the K. C. rooms. The business session will follow a 6:30 dinner.

The Women of Mooseheart Legion will hold a covered dish party at the Royal Order of K. E. on Monday evening in Odd Fellow hall. The party is the forfeit agreed upon to be served by the organization which lost a series of card parties. The ladies lost the match by 22 points.

### BEG PARDON

Kaukauna—The present membership of Kaukauna Aerie, Fraternal Order of Eagles is 275 members. Tuesday evening's paper stated the membership as only 175.

In the story relative to the mid-winter fair it was said two pure bred calves valued at \$25 each would be featured prizes. Members of the fair association objected to the statement on the grounds that a pure bred calf is worth at least twice as much as the amount mentioned.

### SMALLPOX FEAR POSTPONES DANCE

Fireman's Ball at Hortonville Will Be Held Later—Three Cases in Village

Special to Post-Crescent  
Hortonville—The fireman's ball which was to have taken place Friday night has been postponed because of the smallpox prevalent here. At present there are three cases in town. All of the school children have been vaccinated to prevent the spread of the disease.

Mrs. George Jones entertained the Five-hundred club Tuesday evening. It was the first meeting of the season. The first prize was won by Mrs. Charles Stillman and second by Mrs. Eli Steffen. Mrs. Stillman will entertain the club next Tuesday evening.

Hortonville Skat club met at the John Doherty home Sunday evening. The occasion was also Mrs. Doherty's birthday anniversary. The first prizes were won as follows: Stat. Charles Schulz; schakopf, Mrs. Otto Handsecker; rumm, Mrs. Charles Schulz. The club will meet Wednesday evening at the William Schos' home.

Mr. and Mrs. Rexford McNutt and family spent Saturday at Oshkosh. Fred Fanning and children were from New London visitors Tuesday.

## ASK PUPILS TO AID NEAR EAST RELIEF

Appeal Is Made at Waupaca for Funds and Clothing for Sufferers

Special to Post-Crescent  
Waupaca—An appeal has been made to school children by an agent of the Near East relief committee for funds and clothing to continue the work started some years ago. The organization for the relief of the distress in that section of the world is apparently well established, judging from the personal talks and the literature distributed in Waupaca.

Waupaca will have at least three pluming concerns in the future. Frank Burgess has announced the reopening of a shop. Fred Dahm will continue his present business and the William Auer pluming business has been bought by a Menasha man, G. Reimer of the Drusick-Reimer company of that city.

Marriage licenses issued the past week for Waupaca were: Ludwig C. Virochow, Lind and Eva Stafford, Waupaca; Herman P. Lipke, Lind, to Olive Neumann, Lind.

Miss Estelle Jorgensen has resigned her position with the Post Printing company and will go to Chicago to study nursing.

Hans Martin left here Wednesday with her brother Peter for Chicago. Mrs. Harvey Nielsen and son Owen will return to Warren on Saturday after a visit with the former's parents, Mr. and Mrs. C. W. Nelson.

Orto Gurholt of Scandinavia, was in the city Wednesday.

E. L. Geniesse, assistant traffic manager of Wisconsin Telephone Co., Appleton, returned to that city after completing his work at the local exchange.

Charles Yost returned to Oshkosh after a visit with friends.

J. O. Paulsen of Sparta, left the city Thursday for his home.

C. W. Chesley made a business trip to Amherst Wednesday.

Mrs. William Doerfer will entertain the Jolly Nine club at her home on Union-st. Friday evening.

The Women's Christian Temperance union met with Mrs. Vedner, State-st., Tuesday evening.

Mrs. B. M. Daley spent Tuesday at the home of her sister, Mrs. E. P. Nelson, and returned to her home in Wausau on Wednesday.

Milton Laux returned from Minneapolis to take charge of the Laux Bros. garage in the absence of Lester Laux, who will go to Chicago on business for a few days.

### NEW LONDON PERSONALS

New London—Mr. and Mrs. David Egan went to Clintonville Wednesday to attend the funeral of Mrs. Egan's uncle.

Mrs. Belle McGregor of Neenah was in the city this week in the interest of the Lady Macabees.

Miss Eileen Moriarty, who attends St. Joseph academy at Green Bay is home for a few days' vacation.

### What Do You Know About the Constitution?

The Constitution of the United States is the accepted pattern in government for the whole world. It is man's most successful attempt to govern himself.

While this document is mentioned more frequently than any other paper in American history many Americans have only a confused idea of its provisions.

To understand your Government thoroughly you must know its Constitution. The Washington Information Bureau of this paper will supply you with a copy of the Constitution, Declaration of Independence, and Article of Confederation without cost.

Just fill in the attached coupon and enclose two cents in stamps for return postage.

### PAULINE HAFNER IS LEAGUE PRESIDENT

Walther Organization Holds Annual Meeting, Plans for Valentine Party

New London—The Walther league of Emanuel Lutheran church met Tuesday evening for its annual election of officers. The annual reports were read, showing the tremendous success of the league during the past year.

The new officers elected for the ensuing year were: Miss Pauline Hafner, president; Miss Margaret Arndt, vice president; Miss Helen Gherke, secretary-treasurer; Clarence Pelser, corresponding secretary; Walter Brensike, janitor; and the Rev. A. Spiering, advisor.

The league will give a Valentine party next month. Committees have been appointed to arrange for the affair.

### 25 SIGN FOR NEW LEGION AUXILIARY

New London—H. J. Pettigrew of Appleton drew a large crowd at his address at Legion hall Tuesday evening. The object of the meeting was to discuss the organization of an auxiliary to the American Legion here. Twenty-five women signed up for the charter list.

Capt. Pettigrew's talk on the legion and the auxiliary was most interesting. Miss Rose Kische sang and David Blissett, accompanied by Mrs. Blissett on the piano, gave a clarinet solo. A musical selection by four of the grade children from the public schools and a Scotch dance by Miss Dorothy Benz completed the program.

An oldtime dance was enjoyed afterward. Holer orchestra furnished the music.

Mrs. H. J. Pettigrew accompanied her husband here.

K. OF C. CONVENTION WILL BE HELD MAY 26-27

Dates for the annual convention of the Knights of Columbus, which will be held in Stevens Point this year, have been selected by the committee in charge of the affair. The dates set are May 26 and 27. A program of social events to be carried out in connection with the convention, which includes a banquet at Hotel Whiting on the evening of May 26, has been prepared by Emmet J. Carrigan, state secretary for the Knights of Columbus, and a committee of Stevens Point officers.

## H. S. WILL MEET KAUKAUNA QUINT

New London — New London high school's basketball quintet is prepared for a fight Friday night, when the strong Kaukauna five invades this city.

Kaukauna defeated New London by a score of 16 to 5 a short while ago, when the Red and White played at Kaukauna. However, the Red and White squad has had several weeks of hard drilling under the direction of Coach Polomis since then. Radtke, flashy New London center was declared ineligible last week, due to being over age. However, the Red and White squad annexed another fast man last Monday, Penney of Bear Creek, who recently moved to this city, and entered New London high school last Monday. Penney was one of the mainstays of the fast Bear Creek squad. He probably will be used in Friday's game.

TOPICS ARE ANNOUNCED FOR METHODIST CHURCH

By Associated Press  
New London—The Rev. V. W. Bell will make a study of the Parable of the Sower" taken from Matthew 13 of the Bible, at the Thursday evening services in the Methodist church this week. There will be an open discussion of the subject afterward.

The service for Thursday evening, Feb. 5, will be taken up with a study of the Life of Elijah, the Prophet of Israel. An open discussion will also follow the study.

On Sunday morning, the Rev. Mr. Bell will deliver his third of a series of sermons on the theme of Salvation. The subject of Sunday morning's sermon will be The Triple Call of Christ in Salvation.

The club will meet with Mrs. Chas. Haase next week Tuesday.

# DIRECTORS OF VALLEY SCHOOLS WILL MEET HERE

Study Curriculum and Methods at Appleton Vocational School

Directors of vocational schools of the Fox river valley will arrive in Appleton Friday morning for an inspection and all-day meeting at Appleton Vocational school. The directors will visit classes in the morning to study the curriculum, text books and methods of teaching in the local school. In the afternoon they will meet with teachers for discussion of their particular work after which the final conference will take place. Every feature of the work of the local school will be reviewed and criticized for the benefit of the teachers and directors.

The organization was formed at Fond du Lac in December. Fond du Lac was the first school visited and C. J. Dorr, director of the downstate school, is the president of the organization. Directors from at least ten schools are expected to be present here.

# MAY BRING SPEAKER TO DISCUSS TAXES

Chamber of Commerce Plans to Invite F. H. Clausen of Horicon to Speak

Plans to bring F. H. Clausen of Horicon here for a forum meeting on tax situation were discussed by the board of directors of the chamber of commerce at the regular meeting in the chamber offices Wednesday evening. Reports on legislative and freight protest activity were given and the express service further considered with Wisconsin Manufacturers association and has some pertinent facts to offer on the state's tax situation. He drew an audience of more than 800 business men at Oshkosh and it is believed a large number will want to hear him here.

The forum committee of the chamber will meet to consider this proposal and suggest a date.

A. C. Reilly, president, described the work of the state legislative committee of which he is chairman. The committee is made up of presidents of chambers of commerce and has begun a bulletin service which will keep all organizations in touch with the laws that are proposed and their effect on the welfare of the state. Conference expressions is planned on some matters now before the state legislature, he said.

A committee of four will be appointed to prepare a brief which will accompany ballots on referendum No. 44, Chamber of Commerce of the United States, when submitted to members soon. The ballot concerns revision of postal salaries and is part of a plan to seek nationwide expression.

R. G. Wolf's report as traffic advisor of the chamber was read, detailing the meeting of shippers at Chicago in protest against increased freight rates, describing the formal protest sent from here and the order of the interstate commerce commission suspending the new tariffs until hearings have been held.

# He Invented Christmas Savings Club; Now Folks Save \$243,855,840 Yearly

New York — O. Henry wrote a famous Christmas tale about a young wife out of money who secretly cut off her beautiful hair and sold it in order to give her husband a gold watch chain.

The devoted husband at the same time sold his watch and bought his wife a beautiful tortoise shell comb worthy of her superb tresses.

That was long before the era of bobbed hair, and before H. F. Rawll conceived and popularized his big idea of the Christmas Savings Club.

Rawll would have spoiled O. Henry's ironic story, but he likewise would have saved the hair and the watch and put a turkey, or a fat hen at the least, on the kitchen table for a holiday feast. His business is, in effect, to whisper convincingly to millions of financially perplexed citizens: "There is a Santa Claus!"

Fourteen years ago Rawll was an expert accountant in Pennsylvania, engaged in installing bookkeeping systems. The Christmas Savings plan occurred to him, and he began promoting it simply as an advertising and thrift scheme to be sold to banks. It grew to be a magic producer of bulging Christmas stockings the country over. The payments made by banks last year through Rawll's system was \$243,855,840, distributed among 6,000,000 people. Savings in other similar systems brought the aggregate to around \$300,000. Club members average receipts of about \$40 each.

The idea likewise played Santa Claus to its inventor, bringing wealth and commanding position to Rawll and reflecting happiness in him.

"They can't get their money out and spend it when they deposit it."

# FIND MAN GUILTY OF ATTACKING GIRL

Arrie Porath, 27, an Oshkosh man, was found guilty by Judge A. M. Spencer in municipal court Thursday morning of a statutory offense involving a 15-year-old Hortonville girl. Porath has previously waived a jury trial, but denied the charges brought against him by the girl's parents. He attempted to prove an alibi by declaring that the girl was in the company of other girls at the time the offense is alleged to have occurred in an Oshkosh hotel. Sentence was to be pronounced Thursday afternoon.

# KELLOGG CALLED 'POOREST MIXER' IN GOVERNMENT

New Secretary of State Had  
Few Educational Advan-  
tages in Youth

BY HARRY B. HUNT  
Washington—Whatever knowledge of law, domestic or international, of Mr. Kellogg has, he dug out for himself.

Whatever capacity he may reveal for diplomacy and statesmanship, in the position of secretary of state, to which he has been appointed, will be due to his own diligent struggle for self development.

Kellogg did not get his foundation in law from the lectures of any one.

He had to work the whole thing out for himself, except for such crude suggestions as he received from the old-school lawyer who permitted him access to his library in return for his services as choreboy and general helper.

This condition is no doubt responsible for the deeply serious bent of the new secretary-to-be.

"Kellogg, as a youth, was a 'grind' without the advantage of a college. He had to do his grinding by himself. But while this developed reserves of mental strength, vigor, and resourcefulness beyond what he might have developed in college, it developed, also, an aloofness, a reserve amounting almost to sterness in personal contacts.

Next to President Coolidge Kellogg is probably the poorest 'mixer' in public life.

This extreme diffidence, amounting to actual timidity in his early years, almost cost him admission to the bar when he first sought to test his legal wings.

After some years of self-directed study in the law office of H. A. Eckholdt, in Rochester, Minn., during which time he earned his board and clothes by doing stable chores and by working on nearby farms during seedling time, young Kellogg came up before a committee of lawyers for examination for admission to practice.

He was nervous and plainly rattled. One of the committee frankly stated he didn't think Kellogg would do.

A second member, C. M. Start, later chief justice of the Minnesota courts, said he thought the young man knew a lot more law than he was able to tell.

The third member was won over to this viewpoint and the committee finally decided to license him. He got by, but it was a "close squeak."

No man who gets into the law by such self-denying labor ever forgets his "first case." Kellogg never has forgotten his.

The suit was over ownership of a horse. Kellogg's client had possession of the steed, ownership of which was contested by the other party to the action.

For his services, Kellogg was to be paid \$6 in cash and was to receive transportation to and from the county seat, 15 miles away.

Kellogg rode with his client to court, won his case and collected \$3 of his fee.

# DARING DRIVER SENDS CAR OVER THIN ICE NEAR STROEBE ISLAND

Driving an automobile across the ice of the Fox river at an especially dangerous spot was the daring feat of Jack Hyson of Menasha last Wednesday. Mr. Hyson left the mainland near Stroeb's island and crossed to the resort, crossing over one of the most dangerous parts of the river as far as strong current is concerned. The trip was made in a sedan and according to rivermen, it was the first time that a car had crossed the ice in that part of the river. Harry Stroeb, one of the owners of the resort, chopped a hole in the ice immediately after Mr. Hyson arrived and found it to be so thin that the daring driver decided to return by the longer route. On Saturday a man crossing the ice on foot at the same spot had a narrow escape from dropping into the stream, Mr. Stroeb said. The river froze over solid Monday evening.

# PAPER PRODUCTION GROWING RAPIDLY

Uncle Sam's Pulpwood Supply  
Decreases as He Boosts  
Paper Making

BY RASCOM N. TIMMONS  
Washington, D. C.—Uncle Sam's use of paper is increasing and his wood pulp yearly becomes more scarce.

The department of commerce announced today that, according to the data collected in the biennial census of manufactures, 1923, the establishments engaged primarily in the manufacture of paper and wood pulp reported products valued at \$807,345,992, an increase of \$5.9 per cent as compared with 1921, the last preceding census year.

Of the 746 establishments engaged in the industry, 525 reported the manufacture of paper only, to the value of \$467,554,935; 49, wood pulp only, \$21,217,772; and 172 both paper and wood pulp, \$418,549,295.

VALUE JUMPS 33.7 PER CENT  
The total output of paper of all classes (including cardboard and other paper board) in 1923, 8,020,432 tons, valued at \$312,509,171, shows increases of 47.9 per cent in quantity and 33.7 per cent in value as compared with 1921, the last preceding census year.

The production of wood pulp, including that consumed in the same mills in which manufactured, increased from 2,876,301 tons in 1921 to 3,789,172 tons in 1923, the rate of increase being 31.7 per cent. The production of wood pulp for sale or for consumption in mills other than those in which manufactured, increased from 867,749 tons, valued at \$63,373,532, in 1921, to 1,063,396 tons, valued at \$65,497,098, in 1923, the rates of increase in quantity and value being 22.5 per cent and 3.4 per cent respectively.

Of the 746 establishments reporting for 1923, 153 were located in New York, 82 in Massachusetts, 62 in Pennsylvania, 57 in Wisconsin, 53 in Ohio, 42 in Michigan, 41 in Maine, 37 in Connecticut, 34 in New Jersey, 23 in Indiana, 25 in New Hampshire, 23 in Illinois, 17 in Vermont, 19 in Maryland, and the remaining 80 in twenty other states.

# Painful Rheumatic Swellings Disappear

Discoverer Tells Druggist Not to Take  
a Cent of Anyone's Money Unless  
Allenrhu Completely Banishes All  
Rheumatic Pains and Twinges.

James H. Allen, of 26 Forbes-St., Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery, which he called ALLENRHU, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed Schilntz Bros. Co. and druggists everywhere to dispense ALLENRHU with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment.

# Vocational School Gives Course In Poultry Raising

The class in poultry husbandry, which has been meeting under the direction of Appleton Vocational school, is proving very interesting and beneficial to its members. The class, which consists of 11 students, is directed by G. W. McIlroy who has had several years experience in teaching poultry classes and in poultry extension work. Enrollments for the class will be taken at any time and additional information will be supplied by calling Mr. McIlroy at the school. The group meets at 7:30 on Friday evenings.

Phases of poultry production which have been discussed are culling, housing, feeding and diseases. Culling is an especially interesting phase of poultry work, according to Mr. McIlroy. Flocks of hens which have not been culled usually contain three groups—a small group of good hens, a small group of poor ones and a large group of medium class. Those in the first two groups are detected easily, but those in the medium class present more of a problem. Five simple tests can be applied to each hen to determine whether she should be kept in the flock. It is not an uncommon occurrence in flocks that have been culled for the first time for the hens remaining to lay more eggs the week culling than the entire flock did the week before culling. This is due principally to more space and feed per bird.

Another important phase of poultry keeping is the matter of proper housing. A flock poorly housed in this climate uses nearly all its feed to keep warm and therefore lays very few eggs when eggs are high priced. The matter of ventilation in a poultry house often is a big problem. Prominent people in the poultry field agree that a complete ration should consist of six groups: scratch feed, mash, mineral, animal feed, green feed and water. Not only is it necessary to have a good combination of mash and whole grains but they must be fed in the right proportions often varied with the different seasons. Minerals are necessary to aid the food grinding process and animal feed is essential for heavy egg production. Water is essential to poultry.

Some of the more common diseases of poultry have been considered and their remedies discussed by the class. The incubation season is rapidly approaching and from now on the work will be a study of incubation, brooding and the care and feeding of chicks and growing stock. Other phases will be taken up on request if the time warrants.

# Mother Tells How Parry's Vegetable Compound Brought Health To Her Boy

Sold in Appleton by Voigt's Drug Store Only

"Wonderful Benefit," Says  
Maryland Woman, Her  
Heart Full of Gratitude.

Parry's Vegetable Compound has helped a host of ailing people—thousands of bottles are sold every month—but read what follows—we quote from letter received—we have hundreds of other thankful letters.

To a mother, here is one of the sweetest stories ever told. It is written by Mrs. J. W. Taylor of Hagers-town, Maryland.

"I am extremely glad to be able to report to you the wonderful benefits our little son, Kenneth, has received from the use of Parry's Vegetable Compound. He can now get around well, is enjoying the use of his hands and limbs, can open his hands wide and lay them flat upon the table the same as any other person. And instead of emaciation of body he so plainly showed, he is fast taking on flesh, and his body rounding out. In fact, he is so fully advanced toward normal health that we are preparing to send him to school at the beginning next term. You cannot imagine how happy it makes us to see him so rapidly recovering."

"Don't hesitate to use our names in recommendation of Parry's Vegetable Compound, as it has brought the joy into our lives of knowing that our

Kenneth will not have to go through life a helpless cripple, but can go about unaided, the same as others do."

It's the people who refuse to become discouraged or disappointed when illness overwhelms them that have the best chance to again enjoy the blessings of health and happiness.

Many ailments, yes, many so called serious diseases, are caused by what is known as intestinal stasis.

That's what the medical profession call it but, "An accumulation of poisons or toxins in the bowels," due to a stagnation of the functions of the intestines, is perhaps a better way to say it so that all can understand.

The seeping of these poisons into the blood and hence into the entire system causes a lot of sickness and misery in this world and this sickness can best be overcome by removing the cause.

This is no easy matter, for once entrenched these poisons are hard to get rid of and so a medicine must be used that is effective for that purpose and Parry's Vegetable Compound, a rare combination of oils, is recommended. Ask for a copy of "A True Story," one of the most wonderful books ever published—it's free.

Parry's Vegetable Compound, the medicine that has helped and is helping thousands, can only be obtained in Appleton at Voigt's Drug Store. adv.

# KASPER WILL SHOW HOW HE MAKES FAMOUS CHEESE

P. H. Kasper, Bear Creek, who won national renown as a cheesemaker, has been asked to demonstrate his prize-winning methods throughout the special courses which are to be given for experienced cheesemakers, operators and factory managers at the Dairy-bldg. of the Wisconsin College of Agriculture, Feb. 3 to 6.

Manufacture of creamery butter and ice cream also have been given attention in arranging the course of instruction. The courses are free. Mr. Kasper will teach cheese scoring and judging.

# You Can Quickly Limber Up Sore, Stiff, Swollen Joints

Even chronic rheumatic swellings in knee, foot, ankles, arch, hips, elbow, shoulder or finger joints yield to the mighty powerful influence of JOINT-EASE

It's here, right in town and every live druggist has it.

It's a low price remedy, to be sure, but that doesn't stop it from taking the kinks, lameness or torture out of your troubled joints.

Joint-Ease is the name, so called because it is compounded solely for the purpose of relieving all joint ailments. Just rub it on the tormented, lame joints and in just a few seconds it will penetrate through skin and flesh straight down to the ligaments and

tendons of the joints—right where the agony starts—Then blessed comfort comes quickly.

It absorbs instantly and is so clean that you can rub it on often and get thereby results much more quickly, when the joint is inflamed and the agony intense.

Being such a powerful counter-irritant, it cannot help bringing speedy and helpful results in congestion, sore throat, chest colds, lumbago and neuralgia much quicker than almost any remedy you can buy.

But you must remember that it is for joint afflictions that Joint-Ease is mostly dispensed, and its helpfulness will astonish you after all ordinary liniments and other treatments have failed. Voigt's Drug Store, Schilntz Bros. Co., sells lots of it. adv.

# 600 BIRDS ENTERED IN ANNUAL POULTRY SHOW

## CURIOUS FOWLS ON DISPLAY AT ANNUAL EXHIBIT

Quality of Poultry Is Above Average of Other Years, Officers Say

Approximately 600 entries were made this week in the annual poultry show of the Fox River Poultry and Poultry Association which is being held in Armory G. The exhibits include some of the best varieties of poultry ever seen at any show here. Wednesday was entry day, while Thursday was the opening day for the public. The show is to continue through Sunday in order to allow those unable to visit the show during the week to attend on Sunday. The quality of birds is on the whole better than that of previous years, and a number of fine specimens may be seen. A large entry was made by R. G. Stanfield of Dellsdale, Mich., who is displaying a flock of Buff Orpingtons. A type of bird never seen before here is a group of white Chantrelles. L. H. McCarter, Appleton, has an interesting exhibit of Black and White Wyandotte Bantams which he imported from England. One of the white ones has taken valuable prizes at other shows. There also are Black Lanes from China, exhibited by W. H. Plotow, Appleton, and the fowls are so large that it was necessary to elevate the roofs of the pens about five inches. There is an exhibit of white Kiewies owned by Mrs. Josephine Burhans, Appleton, which arouse considerable curiosity. The same is true of the white Silks exhibited by Norbert Kersten of DePere. Besides a large display of the different varieties of Leghorns, Wyandottes, Plymouth Rocks, Rhode Island Reds, Orpingtons, Langshans, Brahms and Minorcas, there also is a large display of bantams. A pen of White King doves of L. E. Bushey is attracting a bit of attention. The birds are large, weighing two pounds. Another side attraction is a pen of Angora cats. The Black Silver Foxes were late in arriving, but word was received Thursday morning that they were on the way. They come from the Calumet fox rank at Sherwood. The biggest fowl at the show is a Mammoth Bronze turkey gobbler, weighing 31 pounds. It is a fancy bird and is valued at \$75.

## DEPUTATION TEAM IS FORMED BY HI-Y BOYS

Laurence Bohon, Alan Harwood, Edward Blossman, Everett Roudoush and Robert Zschaeckner were chosen members of the newly organized HI-Y club deputation team at the meeting of the club Wednesday evening at the Y. M. C. A. Final plans for the program of the team were made and the group will begin work in about two weeks. The team will visit young peoples societies of the churches here and put on services for each society. Out-of-town trips to churches of the Fox river valley probably will be scheduled in the near future. Plans are being made to have the HI-Y orchestra and quartet take part in the services of the deputation group. The meeting was concluded with a discussion of Leadership.

## \$2,000 FIRE AT STANDARD PLANT

Fire causing approximately \$2,000 damage broke out in the pent house of the Standard Manufacturing company at about 5:15 Tuesday morning, but was extinguished by firemen in about a half hour. While the cause has not been determined, it is believed that it was the overheating at the junction of two smoke pipes leading into the chimney. The flames ignited the pent house overhead and burned off the roof of the boiler house. A temporary roof was being built today so the plant can resume operations on Saturday.

## GROGAN HEARS TALK BY EXPERT IN BOYS WORK

Attorney F. W. Grogan has returned from Milwaukee, where he attended a conference of state judges and district deputies of the Wisconsin jurisdiction, Knights of Columbus on Sunday. The principal speaker was Brother Barnabas, F. S. C., executive secretary of the Boy Life Bureau, Knights of Columbus, and vice president of the Canadian Council of Child Welfare. Brother Barnabas was engaged in a boy welfare work, research and study for 42 years and he has been called upon by virtually every boy welfare organization in existence today for advice and counsel, including the DeMolay boy organization of the Masonic order. Brother Barnabas is now working out the details of the Columbian Squares, the boy branch of the Knights of Columbus, which will be launched as soon as ground work is completed. The Victor Artist program for Thursday evening will be broadcast from stations WCAP, Washington; WJAR, Providence; WPI, Philadelphia; WDBB, Worcester; WGR, Buffalo; WCAE, Pittsburgh; WEEI, Boston. The artists will be Miguel Fleta, Spanish tenor of the Metropolitan Opera; Lucy Isabella Marsh, Lyric soprano; Franzalez Quartet, composed of Adolfo Belli, first violin; Alfred Pochon, second violin; Louis Bally, viola; Ivan D'Arribambou, cello. The program includes four selections by Fleta, "La donna e mobile" from Verdi's Rigoletto, "Il Sior"

## NEW DIRECTORY IS PUBLISHED AS NEW NUMBERS ARE USED

Meyer Press Issues Book Containing New Street Addresses

The new directory compiled by Meyer Press, with the help of city engineering department, is off the press and is being delivered to subscribers. The directory is intended to bridge the gap between the change in house numbering system and the directory which will be issued by the Wright Directory Co., probably next July or August. The Meyer Press directory gives both old and new addresses of Appleton people. The directory is in two sections, the first listing streets in alphabetical order and the second section lists names in alphabetical order. Because of the extreme difficulty in compiling a directory from street department information, some errors have crept into the work but these are being corrected as rapidly as possible. The publishers are asking subscribers to note errors and to send them to the Meyer Press which will publish an addenda in a few weeks containing the corrected addresses. It is believed that when the addenda sheets are printed the directory will be nearly 100 per cent accurate. The directory publishers have found a large demand for the books and it is believed that a great deal of the confusion which was expected because of the wholesale change in street names and in building numbers will be avoided.

## AUXILIARY STATE HEAD GUEST OF LEGION OFFICERS

Mrs. Ruth Sutton Doland, state president of the auxiliary of the American legion, and six members of the local auxiliary were entertained at dinner at 6:30 in the French room of Conway hotel Wednesday night by members of the executive committee of the Oney Johnson post. Mrs. Doland is in Appleton to confer on legion matters with L. Hugo Keller, state commander.

## LIBRARIANS OF VALLEY ORGANIZE FOR COOPERATION

Fond du Lac Librarian Is Elected Chairman of New Organization

Miss Florence Day and Miss Mary De Young represented Appleton at the reorganization meeting of Fox River Valley Librarian association Wednesday afternoon at Menasha public library. Fifteen librarians were present at the meeting which was presided by a dinner at Hotel Menasha at 1 o'clock. Miss Lella James of Fond du Lac was elected chairman of the new association and Miss Harriet Northrup of Menasha, secretary. No other officers were elected. The purpose of the association is to hold informal discussions of library problems and maintain closer cooperation between librarians of the valley. The next meeting will be held in Oshkosh in April and after that meetings will be held annually, the place of meeting to be decided at the preceding conference. All meetings will be held in the spring so as not to interfere with annual state conference which is held each fall. Librarians attending the meeting were: Miss Sybil Schuetto and Miss Marion Sharp, Green Bay; Miss Lucy Hewitt, Miss Elizabeth Lathrop and Miss Vivian Zentner, Oshkosh; Miss Lillian Bell, Kaukauna; Miss Lella James, Fond du Lac; Miss Clara Lindsay, Waupun; Miss Mae Hart, Neenah; Miss Daisy Thilling, Miss Charlotte Friedland and Miss Harriet Northrup, Menasha; Miss Florence Day and Miss Mary De Young, Appleton. Rupture Experts Coming

Demonstrate the Famous Rice Method Free to Callers at Hotel

If you are ruptured, your big opportunity has now arrived. If you want to be free from the slavery of coughing, chafing trusses that make life a burden and misery, then HERE and NOW is the time to act.

A. R. Perkins and Miss Virginia Perkins, experts in rupture cases, trained under the personal direction of W. S. Rice, of Adams, N. Y., originator of the famous Rice (Non-Surgical) Rupture Method, will be at Conway Hotel, Appleton, Wis. Saturday, Jan. 31 to give free demonstration and trial of his safe and painless Method to every man, woman and child who is ruptured.

You have, no doubt, heard and read much about this famous Rice Rupture Method and the wonderful cures which thousands have reported from it. Now, you have the chance to find out all about it, to have it personally applied to your own rupture and learn just what it can and will do in YOUR OWN case. Just call at the hotel and these Experts will give you their personal attention, best advice and complete demonstration entirely free.

Are you tired of that binding, hampering, uncomfortable old truss? Would you like to be done with truss wearing forever? Then investigate this Rice method and learn the wonderful opportunity for help and cure it offers. Remember it is different from everything else and is accomplishing wonderful results where all other treatments, and even operations have failed. It is modern, up-to-the-minute, abreast of the latest scientific developments. It is the one Rupture Method you are not asked to take on faith alone—the one Method that is positively demonstrated to you right on your rupture, without any charge whatever.

Don't let this great opportunity get away from you. Your call on the Rice Experts is sure to prove one of the best things you ever did. They will be there only one day then your opportunity will be gone. Remember, you do not spend a penny unless, after having a complete demonstration, you decide this is the Method for you, and you—your alone—are the sole judge of that.

Call at time from 9 to 12 a. m., 2 to 5 p. m., or 7 to 9 evenings. Simply ask at the hotel desk for the Rice Experts and they will do the rest. Lady Expert attends all lady callers. Don't miss seeing these Rice Experts.

### FIND FARMER IN DITCH, WAGON IN RIVER, HORSE GONE

Neenah Police Trying to Trace Movements of Her-man Sell

Neenah—An unconscious man found beside the Winchester road west of this city, his wagon in the Menasha river and his horse on North Commercial-st Wednesday evening, is a mystery to be solved by local police.

At 9 o'clock the police were called to the Winchester road where a man was reported in the snow, either dead or ill. Herman Sell, a well known farmer, was the man. An empty bottle in his pocket indicated he had been drinking. He was taken to the station where he remained over night.

Soon after the return to the station, the police received notice from J. P. Keating, yardman for the Soo line that one of the Soo engines had struck a horse and wagon on the bridge in Menasha. The police went to Garfield-ave, where the Soo line crosses the Fox river and down in the river below the wagon was found overturned on the ice. No horse was attached but prints in the snow showed that a horse had freed itself from the overturned vehicle.

The animal was located on North Commercial-st where it had been caught by Ernest Nye.

To connect the three—Sell, the wagon and the horse—each in different parts of the city, is the task of the police.

Mr. Sell claims that he does not remember anything after he left Winchester for his home early in the evening.

Mr. Sell appeared before Justice O. B. Baldwin Thursday morning and paid a fine of \$10 and costs for being intoxicated.

# CORNELL MEETS LAWRENCE HERE MONDAY, FEB. 2

## ATHLETICS SWAMP NIAGARA FALLS, 40 TO 8, FOR TITLE

### Neenah Wins From Niagara, 21-20, In Consolation Game

Kimberly Holds Easterners Scoreless With Five-man Defense Throughout Second Half

Kimberly — Kimberly Athletics Wednesday evening won the caging championship of the Kimberly-Clark mills when they defeated the Niagara Falls team, 40 to 8, in the title tilt of the second annual Kimberly-Clark tournament. Neenah nosed out the Niagara five, 21 to 20, in the consolation contest, and thereby took third place.

The Athletics had things all their own way in their fracas with the eastern millmen, scoring fieldgoals almost at will, while the Niagara men were seldom able to get near the basket. During the first half the easterners played a fair game, scoring 8 points on three baskets and two free-throws while the Athletics were making nine baskets and a foul throw, but in the second half the Kimberly quiet simply walked away from the visitors, holding them scoreless throughout the half.

Loose and Koll did most of the scoring for the Athletics in the first half, each of them caging the ball three times, while Koll also got a freethrow. Scheurle made two pretty baskets, and Boettcher regained his eyes for the basket and shot the ball through the hoop four times. Cooke who had played a good defensive game in the first half, also got started on offense in the second and made two baskets. Koll got two more in addition to a freethrow and Scheurle brought his total baskets up to four.

Gross, Niagara Falls forward, scored all but two points for his team on two fieldgoals and two freethrows. Williams, left guard accounting for the other two points with a basket near the end of the first half.

**DEFENSE FAILS**  
Niagara Falls was lost completely with its man for man defense and was unable to solve the five-man system employed by the Athletics.

Chappelle was the individual scoring star for Neenah in its one-point victory over Niagara. He caged the ball six times in the first half and twice in the second. H. Huel and L. Stulp accounted for six points between them, the former making a basket and a freethrow and the latter two freethrows. H. Hertz starred for Neenah with five fieldgoals and two freethrows to his credit.

The game stood 13 to 12 in favor of Neenah at the half, and was close from start to finish. At no time did either team have a lead of more than five points and the crowd was on its toes all the time.

A. C. Denney, athletic director of Lawrence college, refereed all the games of the tournament to the satisfaction of fans and field-manned players. Due to his officiating the games were run off smoothly and without a hitch.

The lineup:  
Niagara Falls — R. F. Gross, Gossens, Loose, R. F. L. P. Tere, Koll, L. F. C. Woodbury, Cooke, C. R. G. Davis, Boettcher, R. G. L. G. Williams, Scheurle, L. G.

Neenah — R. F. Johnson, Van Heesch, R. F. L. F. Lindstrom, Chappelle, R. F. C. Hertz, Huel, L. F. C. R. G. Collison, Schultz, Stulp, C. G. Erbe, Creavine, R. G. Van Ryzin, L. G.

### The Referee

What was the longest fight between Joe Gans and Battling Nelson, where was it fought, who won and how? — J. E. P.

The longest fight between Gans and Nelson was staged in Sept. 1906, at Goldfield, Nev. The decision was given to Gans in the 42nd round on a foul.

Where did George Little coach before coming to Michigan? — H. T. K. Little coached at Miami University previous to his position at Michigan. Didn't Northwestern win a single game in the Big Ten basketball race last season? — T. R. S.

No. Northwestern played 12 Western Conference games and was defeated in all of them.

### FISHER IS PRINCETON CAPTAIN FOURTH TIME

Gerald Fisher of Princeton holds the unique distinction of being named captain of Orange and Black teams four times. Fisher led the frosh soccer and lacrosse outfits and later was selected to pilot the varsity lacrosse squad. On top of this he was recently appointed leader of the university's soccer combination. He has also been swimming team manager.

New York — "Cannonball" Eddie Martin accepted a \$30,000 offer to defend his bantamweight title against Frankie Genaro, American flyweight title.

Fond du Lac — Wisconsin bowlers who try to bowl on more than one team in the state tournament, now being run off here, or in future contests, by using fictitious names, face the loss of all rights to participate in organized bowling. William F. Fenske secretary of the Wisconsin State Bowling association, announced, on Wednesday.

Strong measures to eliminate the evils of this "double bowling" during the remainder of the present tournament and in later state meets will be taken, Fenske declared. His warning was participated by the discovery of at least two instances so far in which bowlers had entered under two names.

### TO BAR OFFENDERS

Not only will such action automatically bar the offenders from future tournaments, but it will also bar them from league running under A. C. sanction. Fenske's announcement was the feature of a tournament day that brought little action in the way of score making. Fond du Lac booster teams occupied the drives during the afternoon and evening, with usual boomer results.

A Purrier, Fond du Lac, bowling a 620 score with games of 225, 203, and 192, rolled into fifth place in the singles events of the state tournament today. Purrier had the only score above the 600 mark.

### PAAVO NURMI COPS FIFTEENTH WORLD RECORD WEDNESDAY

Willie Plant of New York Defeats Italian Walking Champion

New York—Defeats rather than conquests featured the second night of the annual Milwaukee Athletic Club indoor meet, that of Ugo Frigerio, Olympic champion, by Willie Plant of New York, the best in America, standing out in the list of reversals.

Paavo Nurmi, apparently unconquerable, accomplished the expected establishing two world's records in a 2 1/2 mile event for the famous John Wanamaker cup which was won for the seventh time by the American, Jols Ray of Chicago. In 1924 Ray captured a leg on the present trophy but Wednesday night dropped out of the race after a few laps.

Nurmi has gathered fifteen world's records since he came to America. Last night he outmaneuvered marks set by Ray by reaching the mile and a quarter in 1:15 minutes and the mile and a half in 6:39.35. He ran steadily after taking the lead at the start and finished well ahead of Willie Goodwin, of the New York Athletic club, who, however, made an exceptional showing, for Paavo has lapped many a man during his visit.

Plant, facing the other European invader, Frigerio, walked to what seemed an easy victory over a distance of 3 miles and 135 yards. Plant performed beautifully. Frigerio congratulated the victor by kissing him on both cheeks. Plant's time, 22:08.35 established an indoor record.

Some of the interest was taken out of this indoor contest when it was announced that George Goulding of Canada, former Olympic champion, had withdrawn and had retired from competition for all time. He was ordered to remain out of the Milwaukee race by the club's physician after examination.

Another upset came when Jackson Scholz, Olympic 200-meter champion, went down to defeat twice before Leroy Murchison of the Newark Athletic Club in the 60-yard dash and the 300-yard special. Scholz proved to be his own official in the short sprint, declaring that he had been beaten in a trial by J. J. Sullivan, of Boston college although most officials called it a dead heat. The Olympic star refused to run in the finals.

In the "300" Scholz started in the lead but slipped at the first turn and went down only to bound back to his feet and continue in fourth place. Murchison won this event.

Georgetown university outdid its own record of 1:47.15 in the two-mile relay, Brooks, Holden, Sullivan and Masters making the distance in 7 minutes 44 seconds.

Herb Meyer of the Athletic Club and Charles H. Moore of Penn State equalled the record for the 50-yard low hurdle in 1:14 seconds. Moore's time was made in a trial heat but he lost to Meyer in the final.

### Four Next Games On Blues' Schedule Are On Army G Court

Beloit, Marquette and Coe Will Clash With Lawrentian Cagers After Next Game Here

Lawrence college meets the invading Cornell basketball team here Monday, Feb. 2. Through a mixup in dates it was stated on Wednesday's sport page that this game was scheduled for Friday. Beloit is due here on Friday, Feb. 6, and Marquette meets the Blues in a return game in Armory G on Tuesday, Feb. 10, with Coe next on the home schedule on Saturday, Feb. 14. This gives Appleton fans a chance to see the Blues in action on their home floor four times in succession. All four of these contests are important and A. C. Denney, athletic director, is making plans to seat capacity crowds.

Cornell, the first hostile quintet to invade Appleton, is considered a formidable rival although not a great deal is known regarding its record this year. However all its victories have been won by wide margins and big scores on both sides, indicating a strong offense.

**VETS RESUME DRILL**  
In view of the fact that the Lawrence five-man defense has been active in every game thus far, it looks as though the Cornell cagers would have a hard time here. Denney has been letting his regulars rest to recover from the effects of their trip to Carroll and Marquette last week, but Wednesday afternoon all of them were back on the court ready for heavy action.

Ashton, Erliese, Zussman and Kotal, all of whom wear on the injured list during the week end trip, have recovered somewhat, but Feldman now is bothered with sore shins from getting kicked in the Carroll and Marquette tilts.

Grove and Kosbab got into action in the last two games and showed up well. This is encouraging as it was feared earlier in the season that a lack of competent substitutes might be a serious handicap to Lawrence later in the season.

Besides the four home games listed above there are two more on the Lawrence schedule. Knox and Carroll play here on Feb. 26 and 27 respectively, after the Lawrence quintet invades Rhinon. Following the Carroll game here, the Blues invade Beloit and then Milton, where they play their final game of the season.

New York—Three famous stallions, Fair Play, Hourless and Messenger, and 65 mares comprising the Lexington, Ky., nursery stock of the late August Belmont, were bought by Joseph E. Widener, Philadelphia, to place on auction.

Boston—Tiger Flowers, Atlanta Negro middleweight, stopped Tommy Robson, Boston veteran, in the eighth round of a scheduled ten-round bout.

Oakland, Calif.—Billy Wells, English welterweight champion, won a decision over Pete Latzo of Wilkes-Barre, Pa., in ten rounds.

San Francisco — Jimmy O'Connell, former Gladiateur, through his attorney, said he would refuse to testify at the New York investigation of the 1924 baseball scandal unless he was assured immunity.

### Connie Mack Has Tallest Mound Staff

Philadelphia — Connie Mack will have the tallest pitching staff in captivity when he assembles it for spring training at Fort Myers, Fla., late next month.

All told the elongated manager will have 13 hurlers in camp. Of these just nine of them stand six feet or more from the ground; three others barely fall short of the six foot mark, while Roy Meeker is the diminutive chap, being but five feet eight inches in height.

Mack will have six southpaws in camp. Seven of the 13 hurlers are veterans, with Edie Rommel leading the list.

San Diego, Calif.—Ray Miller, Chicago featherweight, outpointed Joe Medina, Los Angeles, in ten rounds.

Playing true to form the three leaders of the T. M. C. A. Industrial basketball league Wednesday night held their top positions with the Fox River Paper Co. in undisputed possession of first place and the Island Paper Co. and Citizens National Bank tied for second.

The Fox River Paper Co. had a hard run during the first half of its game with the Shoe Fitters, who were trailing, 12 to 8, at the intermission, after holding the leaders, 6 to 4, during the first quarter. In the second half the Papermakers revived while the Shoemakers' defense broke down. Fox River caged 8 baskets for the Fox River five, while Basing and Adler featured the play of the Shoemakers.

The second game between Bankers and the Coated Paper Co. was hotly contested throughout, although the Bankers were leading, 18 to 9, at half time. The Coated Paper Co. had shot the lead to 18, to 14 at the end of the third quarter but was unable to keep up the pace and lost the game, 26 to 13.

The Valley Sports threatened to upset the Island Paper Co. in the third quarter after the latter had been leading all through the game, when the Sports drew up to within one point of the leaders, making the score 16 to 15. A strong rally in the final period gave the Papermen the game.

During the next two weeks the finals will be staged, when Fox River Paper Co. clashes with the Island Paper Co. for first place and Island Paper Co. and Bankers clash for second.

Here we have "Dazzy" Vance, star pitcher of the Brooklyn staff, in a new role, putting something on the cue ball. While Vance is hardly in the Hoppe class he plays a good game of billiards.

### CHEMIST WILL DISCUSS PHOTOGRAPHY IN PAPER

"The Chemical Significance of Photography" will be the subject of a paper by Clifford Cooper, of Colfax, before the college Chemistry club Tuesday night, Feb. 3. Candidates for the Delta Chi Theta, honorary chemistry group, present papers before the club as stipulations.

Cooper will treat photography from the historical standpoint, tracing the development of the art from the first attempts at making reproductions, the introduction of daguerreotype, the celluloid film, and finally the chemistry of modern photographic printing.

### CLERK KEEPS RECORD OF LEGISLATIVE BILLS

John E. Hantschel, county clerk, is receiving bulletins from Madison giving a complete report of the bills being introduced in legislature. The bills are sent out as they are introduced in the assembly or state senate. The bulletins are open to public inspection but may not be taken out of the county clerk's office.

Sioux City, Ia. — Jack Malone, St. Paul middleweight, was signed to meet Frankie Murphy, St. Paul, at Sioux City, Feb. 6.

ture policies and plans would be worked out in conferences with the new director.

Announcements in some of Wisconsin's pending athletic matters, such as the football coach, ticket sales and publicity, are said in university circles to be likely within the next few weeks. Mr. Little will visit the university again about Feb. 6, he said.

### LAWRENCE GRID CHAMPIONS GET GOLD FOOTBALLS

Members of "L" Club Will Be Hosts at Banquet for Presentations

The "L" club members, letter men of Lawrence college, are to be hosts at a banquet here Thursday night for the presentation of championship football awards to members of the 1924 squad. Eighteen players and seven officers of the football team will receive gold footballs designating Lawrence as champions of the Little Five conference.

The men receiving the awards will be Capt. Jacob Stoll, Olsson, Cooke, Captain-elect Kotal, Erliese, Stark, Counselor Dunham, Hyke, Packard, Gander, Boettcher, Nason, Headman, Zussman, Kessling, Holdridge, and Feind, besides Coach Mark Catlin, assistant coach, "Duten" Sylvester, Athletic Director A. C. Denney, Fred Treize, athletic manager, Dr. O'Connor, J. H. Farley, athletic board president, and Marvin H. Keil, student manager.

The presentation of championship awards will be followed by the initiation of new members. The players will present Coach Catlin with a loving cup for his work in coaching a title team, his seventh at Lawrence. Catlin was formerly a football star at the University of Chicago. He captained the team one year and was an all-American selection at fullback.

The whole of the United States could be supplied with coal from Utah's resources alone for 250 years, experts say.

### Grandmother Knew

There Was Nothing So Good for Congestion and Colds as Mustard

But the old-fashioned mustard plaster burned and blistered while it acted. Get the relief and help that mustard plasters gave, without the plaster and without the blister.

Musterole does it. It is a clean, white ointment, made with oil of mustard. It is scientifically prepared, so that it works wonders.

Gently massage Musterole in with the finger-tips. See how quickly it brings relief—how speedily the pain disappears. Try Musterole for sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (to prevent pneumonia).

To Mothers: Musterole is also made in milder form for babies and small children. Ask for Children's Musterole. 35c and 65c, jars and tubes; hospital size, \$3.00.

**CRANDON STORE BLAZE**  
**CAUSES \$12,000 LOSS**  
Crandon—The furniture store of J. H. Kravitz was almost totally destroyed by fire which broke out Tuesday evening. The damage to the building and loss of the household goods of the Kravitz family, which lived over the store, is estimated at \$12,000, about half of which was covered by insurance. Firemen saved most of the stock of furniture. The blaze was believed to have started from defective wiring or the chimney in the attic. The motor fire engine from Rhineclander was called but arrived after the fire was under control.

A Gleamy Mass of Hair  
35c "Danderine" does Wonders for Any Girl's Hair

Girls! Try this! When combing and dressing your hair, just moisten your hair-brush with a little "Danderine" and brush it through your hair. The effect is startling! You can do your hair up immediately and it will appear twice as thick and heavy—a mass of gleamy hair, sparkling with life and possessing the incomparable softness, freshness and luxuriance.

While beautifying the hair "Danderine" is also toning and stimulating each single hair to grow thick, long and strong. Hair stops falling out and dandruff disappears. Get a bottle of "Danderine" at any drug or toilet counter and just see how healthy and youthful your hair appears after this delightful, refreshing dressing.

**BRITISH LEAN TO COCKTAILS, CLAIM**  
By Associated Press  
London—The British palate for vintage wines is being strangled by the cigarette and cocktail craze, according to a London wine expert, who also finds that steady drinking of whisky will ruin any palate for the mellow products of France, Spain, and Portugal.

**THE WEATHER**  
WEATHER FOR WISCONSIN  
Partly cloudy tonight and Friday. Slightly colder tonight in extreme southeast portion.

**GENERAL WEATHER**  
Low pressure over the southeast is accompanied by rain, sleet and snow in the south Atlantic state. The slight crest of high pressure over the plain states is accompanied by a few fairly low temperatures, but low freshness and luxuriance.

Pressure immediately following it is causing a rapid rise with some snow flurries. This low pressure is expected to extend its influence this far eastward tonight and Friday, with mostly cloudy weather and moderate temperatures in this section. The pressure still is rather high over northern Alberta to Alaska, while low pressure is working inland from the north Pacific coast.

**CARNATION SOCIETY ELECTS NEW CHIEFS**  
By Associated Press  
Milwaukee—The American Carnation society in session here at Milwaukee's flower show elected John Howard, Natick, Mass., president, and Harold Patton, Tewksbury, Mass., vice president. It was announced Thursday.

Boston was selected for the 1926 convention city.

# Classified Ads Pull You Away From Failure And Push You Nearer To Success

## APPLETON POST-CRESCENT

**Classified Advertising**

All ads are restricted to their proper classifications and to the regular Appleton Post-Crescent style of type.

Daily rate per line for consecutive insertions:

Charges Cash	
One day	.12
Three days	.36
Six days	.60
Minimum Charge	50c

Advertising ordered for irregular insertions takes the one time insertion rate, no ad taken for less than half of two lines. Count 5 average words to a line.

Charged ads will be received by telephone and if paid at office within six days from the first day of insertion cash payment will be accepted.

Ads ordered for three days or six days and stopped before expiration will only be charged for the number of times the ad appeared and adjustment made at the rate earned.

Special rate for yearly advertising upon request.

Publishers reserve the right to edit or reject any classified advertising copy.

Telephone 543, ask for Ad Taker.

The following classification headings appear in this newspaper in the numerical order here given, closely allied classifications being grouped together.

The individual advertisements are arranged under these headings in alphabetical order for quick reference.

## THE EASIEST WAY

When the easiest way is the best way--there are no two ways about it!

The easiest way to find help or a position, a place to live, or a lost article--to sell real estate, used automobiles, merchandise of all sorts--in short, to get what you want at the lowest possible price--is to use the Classified Section of the Post-Crescent.

The people of Appleton think it is--thousands of them read and use the classified columns of this paper to save and make money every day.

There's only one thing on which you can build a reputation for service like the Post-Crescent's Classified Section has--and that's on service!

Give the best and easiest way a trial--read the Post-Crescent's classified ads every day--and when you want to use an ad of your own, call 543 and ask for an ad taker!
